LIONS:

We members of the Board of “The Redwood Lions Memorial Foundation” wish to thank all those clubs that have donated to the RLMF disaster fund. As you can see from below, we have done well so far in both receiving and donating the funds we have in our relief account. We hope to continue helping those clubs in the fire disaster areas and want to ask any of those clubs in those areas that are in need of assistance to contact me so we can do whatever we can to assist you. Remember, this is your foundation and we exist to help you to help the less fortunate in your areas.

Barry Bialkoski, President.

LIONS

Your “Redwood Lions Memorial Foundation” has raised over \$84,000.00 so far this year for the fire victims in our area. This is a long term project and we plan to be able to assist those in need long after the other assistance centers have left.

At our district meeting in Cobb on November 18,2017 we received \$11,626.00 (included in above amount). Great job Governor Les.

We have a number of people that we are helping now. A number of our Lions are helping the people in the Coffey Park area. We are finding the need and filling them one person at a time.

Here are some other statistics.

Over 1000 students attending the Junior College lost their homes.

10 people attending the “Earle Balm” center lost their homes.

We are looking into ways that we can help these people.

I am now on the disaster relief committee for Sonoma County and will be working with that committee to see how our Foundation can assist in their efforts.

Keep up the good work!!

The 1st picture shows the CEO of the Living Room Receiving a check from RLMF for \$1000.00 to help displaced women and children. The 2nd picture shows the LCIF reporter talking to a lion from Crocket that is helping displaced people in Sonoma County.
