

Cost-effective, quality contract manufacturing of catheters and related medical devices in an ISO 14644-1 Certified Class 7 clean room.

BENEFITS

- Superior medical device component manufacturing & assembly
- High or low volume production accommodations
- Rapid response to changing capacity needs & evolving specifications
- On-site process engineers
- On-site machine maintenance, calibration & acquisition
- On-site tooling design, drafting & fabrication
- Reliable U.S.-based facility
- Primary or secondary manufacturing source option

CLEANROOM PRODUCTION

Your success is important to us. Your projects are managed by a team of quality-focused manufacturing specialists.

We ensure your products are manufactured on time and per your specifications, taking a proactive approach to design the highest-quality and most cost-effective processes. Let us support you with:

Ongoing contract manufacturing

We'll manage your medical production volume – whether high or low – with quality and care in our ISO 14644-1 Certified Class 7 clean room.

Occasional small batch fulfillment

For occasional contract manufacturing needs – we can produce low volume or short duration runs of catheters or other medical devices.

Prototype and engineering qualifications

Our clean room technicians can create prototypes of catheters or medical devices needed for qualification and validation studies.

Let's get started on your projects.

QUALITY POLICY

CATH TIP is committed to:

- ✓ Meeting customer and regulatory requirements,
- ✓ Enhancing customer satisfaction through meeting our quality objectives, and
- ✓ Maintaining the effectiveness of our quality systems.

CORE VALUES

QUALITY:

CATH TIP is committed to providing the highest quality medical device products and services. Quality is our first consideration when manufacturing parts, developing and improving processes, acquiring equipment or adding to our team.

UNDERSTANDING:

CATH TIP is committed to understanding the needs of our customers and our team members. Honest communication and effective training provide open relationships and mutual success.

ACHIEVEMENT:

CATH TIP is committed to achieving; regulatory compliance, customer satisfaction, continual improvement, employee development and opportunity, stability and growth.

LOYALTY:

CATH TIP is loyal; to our customers, business partners and our team. Our success is measured by your success.

INTEGRITY:

CATH TIP is focused on doing things right. We strive for this through strong moral principles and honesty, and building strength through solidarity and unity with our customers and team.

TEAMWORK:

CATH TIP is committed to collaboration; to success through working together as customers, suppliers and team members to reach goals and objectives.

YOU:

CATH TIP operates by the Golden Rule. Whether a customer, supplier or member of our team, we will treat you the way we would want to be treated, and expect the same.
