

CIRCULAR No #055/GEN

Date: 13/01/2020

**To,
All Member Industries of DCCIA Pune.**

Subject: Solar Master Class

Dear Sir/Madam,

DCCIA in association with Sunshot technologies has organized “**Solar Master Class**” focused on Techno Commercial aspects of on site Solar Power plant implementation, challenges and solutions for effective energy management and new KVah billing policy by MSEDCL.

The workshop will cover:-

1. Quality of Rooftop Solar Power Plant and how it is not easy to build one which will sustain for 25 years long
2. Financing Models - Opex and CAPEX: Here we will cover fundamental differences between these two models. Under Opex, we are going to cover: Coworking of Investor, EPC Company and Customer, Understanding on PPA Clauses, liabilities, savings, termination policies, etc, along with wit techno commercial Opex case study. Under Capex, we are going to cover: Maximization of generation per sq. ft. Quality of components, Investment vs Savings and techno-commercial CAPEX case study
3. Technology-driven Operational efficiency: Drone imaging, shadow analysis, real-time performance monitoring, DG Sync, Power reduction, and IoT based energy management
4. New KVAh billing policy by MSCDC

Details of Program are as follows
