5. Board Business
   a. Back to School Plan
      i. Director: Safety and health were the main concerns that prompted closure. Teachers worked very hard to provide a quality educational experience for students. It was discovered that 20% of students were not able to access the educational experience. We are now looking closely at how we can do better. We may need to go online because of Health Officer orders. We
are looking at different plans to consider, including helping a small group of students to be able to come to campus. The more interaction, the more risk we have. Social-emotional concerns are real, but safety is primary importance.

ii. Various Board members commented on how hard the design team is working to carefully consider all options, working with SBUSD, and working out details of hybrid model option.

iii. Board members commented on the need to address technological issues and teacher training supports as soon as possible.

iv. Board members discussed the need for increased communication and support to families.

v. Ivette Martinez: Many conversations about health screening, sanitation, ventilation, sinks, cohorts – all the logistics. How will specialists teach, supplies, furniture, specific medical needs, recess, coverage, lunch, arrival times. All of these things must be re-thought.

b. Food Program:
   i. Our food program cost is increasing significantly.
   ii. Brianna Aguilar proposes we create a subcommittee for this.
   iii. Ines Casillas, Tanya Ferrufino, Sheila Cullen and Leticia Lemus agreed to form a committee to work on the problem.
