

**The Problem**

Maternal Mortality Rate in Haiti  
**350** Deaths | **100,000** Births  
 US Rate is **12.7** Deaths | **100,000** Births  
 Lifetime risk of maternal death **1** | **83**

**7%**  
 of children die before age five.  
 That is 1 in every 14 children.

Among the poorest quintile (1/5) of women  
**6%** have skilled care

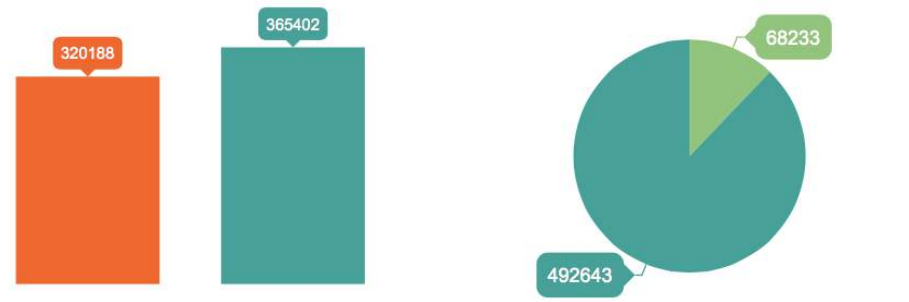

**94%** are cared for by Matrons or family members

**75%** of women do not have a skilled attendant at delivery
