

Star of Hope Update

Our effort to stabilize the Star of Hope building was halted in mid-March due to COVID-19 and therefore, the exterior of the building is still covered in scaffolding. A more welcoming façade will return later this summer.

While the building construction was on hold, the Star of Hope Foundation continued its work on strategic planning and organizational development.

We were pleased to return to work on the building, as of June 1st, when our construction crew made special arrangements, strictly following the COVID-19 guidelines of the CDC and State. Our team is committed to ensuring the safety of the residents of Vinalhaven, and our workers by following these steps:

- Using our own transportation to and from the island
- Arriving and departing each day rather than staying overnight
- Bringing our own supplies and provisions
- Adhering to proper distances and wearing masks

We plan to keep the community updated as we make progress. Please reach out to us with any questions starofhope@starofhopefoundation.org or visit our website: www.starofhopefoundation.org

The Mission of the Star of Hope Foundation is to promote education of the visual arts through various means including exhibitions, a museum, artist-in-residence programs and other outreach endeavors.
