

Beat the heat

Phantom's motorized screens help to keep car dealership cool in Kelowna, BC

"When sun protection is not required, Phantom's motorized screens retract into cavities designed above the openings, completely hiding them from our view."

- LOCATION:** Kelowna, British Columbia
- BUILDER:** Lambert & Paul Construction
- PRODUCT:** Phantom Executive™ motorized retractable screens
- MESH TYPE:** SheerWeave 2360
- NEED:** Harmony Honda was in search of a way to reduce afternoon glare and keep their showroom cool in Kelowna's warm summer months.
- SOLUTION:** Phantom's motorized screens with 90% sun control/UV blockage help keep the building cool and their print materials from fading in the sun. The screen's mesh type is also great for outward visibility and daytime privacy.

OVERVIEW

This successful car dealership, Harmony Honda, has been a part of the Kelowna community for over 25 years. Unfortunately, when the company moved to their current location they were faced with a problem very common to dealerships with large windows: afternoon glare and intense heat from the sun. Kelowna's extreme heat was making the showroom uncomfortable for both the staff and their customers. To make matters worse, the sun's strong glare was also fading their print materials and furniture.

Phantom's motorized screens with 90% sun/UV blockage help keep the building cool and their print materials from fading in the sun. The screen's mesh type is also great for outward visibility and daytime privacy.

APPLICATION HIGHLIGHTS

Sun control and UV blockage

Phantom's motorized screens with 90% sun control/UV blockage and 10% openness help regulate the heat inside the showroom.

Automatic activation

Powered by Somfy®, Phantom's motorized screens have sun and wind sensors that activate before the sun has a chance to raise the temperature in the showroom.

Compliments any building

When sun protection is not required, Phantom's motorized screens retract into cavities designed above the openings, completely hiding them from view.
