

The future of filtering is now.

Unlock the potential of the internet while helping to block harmful and distracting content.

GoGuardian Admin is a multi-layered content filtering solution which provides full flexibility for your school's policies while drastically reducing time spent on configuration and maintenance. Already trusted on over 5 million devices in the US, Admin automatically scales to your needs and can be set up in minutes, without the need to configure SSL decryption. Our technology unlocks the potential of the internet for students while helping to block harmful and distracting content.

GoGuardian helps you create smart and effective digital learning environments that work any way you want it to, without surprises. We're as passionate about keeping kids safe, on task, and engaged as you are.

Proven Filtering Capabilities

Advanced filtering engine using context-awareness to identify explicit content and proxies while they happen

Full Browser Access

Scans everything including docs, mail, social & web

Flexible Reporting

Easily access usage and trends at the student and "Org Unit" levels

On and Off-Campus filter

Set different rules based on time and device location

World-Class Support

Live chat and phone support available during school hours

Multi-platform support

Built for devices using Chrome and Windows
