

GoGuardian on Windows[®]

Help students stay safe and focused with GoGuardian on Windows, whether in a classroom, computer lab, or at home.

GoGuardian Admin[™]

The most complete K-12 web filter

Filter and protect every user on any device, browser, or operating system, all from a single unified interface.

- Create powerful online environments with advanced AI and continuous, full-browser scanning.
- Protect students from harmful content with any number of Windows devices.

GoGuardian Teacher[™]

More teaching, less managing

Eliminate distractions, connect with students, and save time with K-12's leading classroom management solution.

- View student online activity in the browser and on the desktop, and guide students with powerful commands.
- Deliver instruction to the whole class, or chat with students privately to offer guidance and answer questions.

GoGuardian Beacon[™]

A suicide prevention service built just for schools

Identify students who are silently suffering, alert those who can help, and quickly activate your school's custom response plan.

- Proactively delivers warning signs from ALL online activity with instantaneous alerts.
- Dedicated 24/7 safety specialists are available to support your team with active planning alerts.
