PRESS RELEASE

For Immediate Release

August 17, 2021

Vote “NO” on the Recall

The NAACP Monterey County Branch strongly opposes the recall of California Governor Gavin Newsom. This recall effort is voter suppression at its worst and is led by white supremacists, Q-anon, anti-government paramilitary groups, and anti-vaxxer groups attempting to expunge the vote of millions of citizens who show up at the polls. Their most vocal supporters and donors share histories of opposition to policies that advance the well-being and survival of communities of color.

We urge Monterey County citizens to stand with us, and to Vote NO.

As advocates of social, racial, and economic justice, the Monterey County NAACP stands united against this recall effort that poses a serious threat to the progress we have made on numerous policies that protect and support our California Black communities.

We are very aware that Black voter turnout is instrumental in defeating this recall which is why we are currently reaching out to our community to inform and educate about the false narratives flooding our airwaves and social media. These are bold attempts to stop racial equity and racial equality, and we will not allow that to happen.

Governor Newsom has championed numerous reforms and investments to address socioeconomic and racial inequities, and he is working hard to keep Californians healthy and safe by protecting families from eviction, and by providing billions in direct relief to individuals and struggling small businesses.

Voter turnout for this election is **CRITICAL**. There is much at stake for communities of color if the recall prevails. That’s why champions of racial and socioeconomic justice like the Monterey County NAACP are united together and are urging everyone to vote NO on this recall.

When we turn out to vote, WE WIN!

Let’s fight this recall together.

VOTE NO!
