PRESS RELEASE

Greg Rehm, Liberty Hill Construction, LLC.

Receives Silver Award at the annual HBRANH Cornerstone Awards.

Manchester, April 11, 2011: Greg Rehm, CGR, CGP, CAPS, of Liberty Hill Construction, LLC in Bedford, NH received the prestigious SILVER Award in the Specialty Rooms category at the Home Builders and Remodelers Association Cornerstone Awards. There were over 200 members in attendance to witness Rehm be honored for his master craftsmanship in the design of this unique project.

Rehm states "The goal of this project was to provide multifunction areas for entertaining around the backyard and pool. The backyard, fully exposed to the sun, had a small deck and above ground pool with no access directly from the kitchen. An important element was to effectively design around the existing house and mature landscaping. The addition of the enclosed room and multilevel decks enhances access to the pool and backyard, while providing independent areas for entertaining."

The homeowners wanted to combine the use of different woods and finishes to enhance the feel of the room. One of the dominant elements are the two large beams tying the outside walls together. With some searching, we were able to find reclaimed antique heart pine beams with incredible grain and color. The beams created a beautiful contrast to the clear vertical grain fir surrounding it. This entire ceiling assembly is supported by the custom wood panels and accompanying moldings that surround the room. Ambient lighting over the beams and a unique ceiling fan create a comfortable indoor ambiance.

About Liberty Hill Construction

Established in 1998 by Greg Rehm, General Contractor and Owner, Liberty Hill Construction LLC serves primarily the Bedford, NH area, as a contracting company specializing in client relations. With strong communication skills and various designations throughout the industry, he has built a contracting business that focuses on its customers.
