

EN 420

ANSI / ISEA 138

ABOUT

The Tomahawk Righthawk® is designed for heavy-duty work where durability is required and ultra-dexterity is desired. The Righthawk® features innovative components to include a stronger and lighter synthetic leather blended palm with inherent cut and abrasion qualities that is reinforced with a Kevlar strip for enhanced grip. A spandex top-of-hand material allows for flexibility while the complete coverage TPR design provides industry-leading protection which makes the Righthawk® the most heavy-duty capable glove on the market today.

FEATURES

- ✓ Most flexible, Highest abrasion synthetic leather blend on the market
- ✓ Tomahawk Hyperflex TPR that reaches ANSI/ISEA 138 Impact Rating (Level 2)
- ✓ *Tomahawk Hyperflex TPR* that reaches ANSI/ISEA 138 Impact Rating (Level 2)
