

Laserfiche WebLink Factsheet

Read-Only Document Access that Protects Your Core Laserfiche Repository

- Share Laserfiche documents securely with third parties
- Offer simplified searching of publicly available documents
- Enable authorized persons to securely search and retrieve documents
- Customize your interface without extensive coding or programming

With Laserfiche WebLink, you offer a Section 508*-compliant public web portal that provides instant, read-only access to public documents from a wide variety of web browsers and mobile devices.

Laserfiche WebLink can be configured to display a visual style that matches your existing website and to show searches and links that quickly guide users to what they are looking for.

Stream video and audio files without downloading them first.

Tailor Searches to Any Audience

With Laserfiche WebLink, it's easy to provide information to a variety of audiences:

- **Casual searchers:** Deliver public documents more easily with “search crawling,” which enables third-party search engines to locate documents
- **External users:** Provide simplified and customized searching with Quick Searches that search text, entry names, fields or annotations
- **Authorized users:** Offer password-protected login for users to access documents stored in Laserfiche

* The Section 508 Standards contain technical criteria that make electronic and information technology more accessible for people with disabilities.

Product Highlights

- Make relevant documents searchable through third party search engines
- Secure public documents with read-only access and configurable security
- Design customized searches without editing code
- Expose folder content updates and search results through an RSS feed
- Display only the latest versions of documents, keeping the history of changes for internal use only
- Configure repository connections, logging options, watermarks, email and the location of your temporary files
- Enforce watermarks and redactions on print and PDF exports
- Comply with the Web Content Accessibility Guidelines (WCAG) 2.0 AA standard
- Support web browsers including:
 - Internet Explorer® 8+
 - Mozilla® Firefox®
 - Google™ Chrome™
 - Apple® Safari®
 - Opera™
 - Mobile devices such as iOS® and Android™, among others

Users are greeted with a friendly welcome page and an interface that offers search results similar to popular search engines. Relevant documents are easy to find, with search terms displayed in lines of context in the search results.

Laserfiche WebLink also highlights relevant keywords within each document, making identifying information within documents effortless.

Find folders and documents easily with customizable search options.

Customize Your Interface without Coding

Laserfiche WebLink makes customizing your public information portal easier than ever. With the WebLink Designer, custom interfaces and color schemes are possible without ASP.NET coding—so you present a consistent face to the public with minimal programming.

- Help users quickly navigate to certain sections of your Laserfiche WebLink site
- Hide, display or rearrange different components of each search result

Customize the introductory title and logo displayed on your site's welcome page.
