

Sister Rosalind Massage & Wellness Center

Covid-19 Response Plan

7.19.2021

In an effort to help prevent the spreading of Covid-19, Sister Rosalind's has implemented the following procedures to help create a safer operation. These procedures will be evaluated regularly for effectiveness and necessity and adjusted accordingly while keeping any state and local guidelines in mind.

1. Appointment times will be staggered to help minimize the amount of people at once.
2. Staff will wear protective masks upon request of client while in the facility for their appointment.
3. Lobby furniture will be re-arranged to ensure clients would be 6 feet apart if they choose to be seated. Otherwise, standing with recommended distance will be monitored.
4. Massage Therapists will sanitize all room items that have been in use after each client i.e., oil and lotion bottles, spray bottles, face cradle, bolsters, stools, shelving, light-switches and doorknobs.
5. Massage Therapists will continue to wash/sanitize their hands before and after each client and or touching items outside of their workspace.
6. Protective shields will remain in place at the front desk.
7. Front desk staff will sanitize clinical areas as often as possible.

Please let us know if you see anything that may concern you or jeopardize the health of our clients and staff members. We understand this is an adjustment for all of us but a needed one to continue to operate in a safe manner during this crisis. Please call us as soon as possible if you are feeling ill or have found out you have been exposed to someone who tested positive for the Covid-19 virus.

Thank you for your support!
