

@Your-Site Online Classes

NEPPA has established a partnership to provide online, OSHA compliant training for \$30 per person, per class. Participants will receive a personalized, dedicated login and receive certificates of completion to document the training for recording and reporting requirements.

The @Your-Site Online training is regularly updated to meet federal and state regulatory requirements. The vast library of available trainings may also be utilized for new hire training.

Please visit the [@Your-Site Online](#) page for more information or to register.
