

May 27, 2021.

To whom it may concern,

Our company *EMMSA*, founded more than 45 years ago, is a leading manufacturer and distributor in Mexico of PVC and CPVC pipe and fittings.

EMMSA is currently delivering our *Durafort by Cresco* products to the United States through several U.S. recognized distributors.

Our products are manufactured with materials that meet all U.S. quality standards and have international certifications that assures that our products have been rigorously tested, audited and certified to comply with all specification requirements.

Some additional information regarding our CPVC Pipe export products:

- We carefully select our CPVC used in our products. Currently, all CPVC Schedule 80 ***Durafort by Cresco*** pipes are manufactured from a Type IV, Grade I Chlorinated Polyvinyl Chloride (CPVC) compound from a U.S.A. source, NSF® certified designated as CPVC4120-05 and with a cell classification 23447 in compliance to ASTM D1784.
- All compound components are listed with NSF® and meet the requirements of NSF/ANSI/CAN 61 Standard and NSF/ANSI/CAN 372 Standard as suitable for Potable Water and is considered Lead Free.
- Our pipes are manufactured in strict compliance to ASTM F441 / F441M (IPS sizes).
- Our products also meet the requirements of NSF/ANSI 14 Standard and bear the NSF® mark.
- All our products are manufactured in Mexico by *EMMSA*, an ISO 9001:2015 certified manufacturer.

We are grateful for our U.S. distributors and clients for their confidence in *EMMSA* and are convinced that we will continue developing successful partnerships with them.

Regards,

Pedro Rodríguez
