Requested Computer

Donations: Tech Charities is

requesting donations of Laptop computers and Desktop computers that will operate with the Windows 10 operating system. We require a processor that is i5 or better with at least 4 G RAM. To make a donation please call 801-540-6902 and ask for Jim. See address below. The following information is a summary of our purpose and objectives.

TechCharities Computer Donation Information

Key Services

- Provide computers and technical support
- Teach computer skills
- Partner with community agencies
- Recycle old computers

Support Comes From

- Donated computers
- Grants and financial contributions
- Volunteers and interns

Purpose: Helping qualified refugee families and students and others reach their goals and move toward self-reliance.

Data: All data from hard drives is erased using CBL Data Shredder, a process approved by the U.S. Department of Defense 5220.22-M designed to erase all regulated data such as financial and health records. Each hard drive that is erased for use in a refurbished computer is logged in, cleaned, tested, documented, and certified to this standard.

Recycling: Computers that cannot be upgraded to run Windows 10 are sent to a commercial recycling company that recycles the computers according to state and federal regulations.

Authorized Refurbisher: Applied Technology Foundation (TechCharities) is authorized by Microsoft Corporation to refurbish computers and install Microsoft operating systems and programs according to their established standards and specifications.

Receipts: Applied Technology Foundation (TechCharities) is a 501c3 non-profit corporation, EIN 46 360 5622. Receipts for all donations are available.

Reports: As requested, we will be pleased to provide reports to donors on how their donated computers and other contributions are helping those in need.
