

7 Economic Benefits to Virginia in Recycling Used/Spent Nuclear Fuel

Annual Revenues:

1. Recycle nuclear fuel - \$1B
2. Carbon-Free National Lab - \$2B
3. Adv'd Nuclear Power Lab - \$1B
4. Micro-Grid Research - \$500M
5. DoD Reactor Program - \$500M
6. University Nuclear R&D - \$100M
7. High-tech business - \$500M

15,000+ Jobs, \$5+Billion

Environmental & Economic

Win Win for Virginia

All the ashes of nuclear power in La Hague France for 6 decades

Virginia Needs & Can Recycle Used/Spent Nuclear Fuel

www.Virginia-Recycles-SNF.com

A Clean Carbon Free Energy Future with Wind, Solar & Nuclear powered by Recycled Used/Spent Nuclear Fuel is all within

Virginia's Grasp!

We have the Plan!

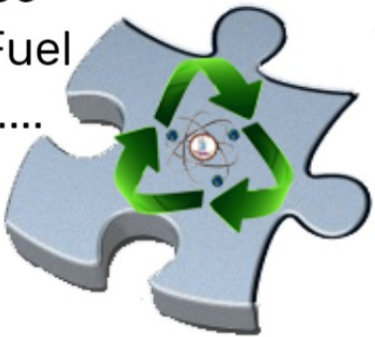

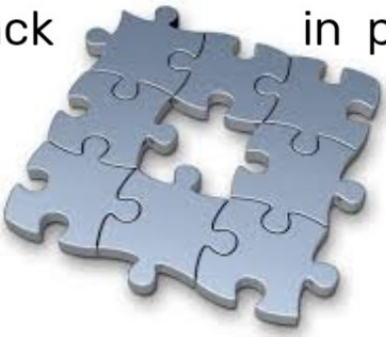

Let's Talk Today!

Recycling Used/Spent Nuclear Fuel The Future of Virginia's Energy Business

Let's put the Missing Piece
of Used/Spent Nuclear Fuel
back in place.....

for Virginia's Green
Energy Future!

**It's NOT Nuclear Waste,
it is Valuable Energy
for the Future**

**Virginia, the United States &
the World need All 3**

Solar & Wind - these sources
have their place, but they need
next-generation base-load
nuclear for stability.

Nuclear - the ultimate battery.
Returning energy stored by the
universe as clean electricity for
the Earth.

**Why Nuclear Energy
is Important**

1. Clean Energy Source
2. Low Carbon Footprint
3. 95% of Waste is Recyclable
4. Compact Waste Stream
5. Future Reactors Small/Local
6. Best Industrial Safety in USA
7. Full Time Power On-Line -

Power when the Sun does not
Shine or Wind does not blow
