|----------------------------------|---|
| Future Painted Products | All painting operations will be transferred to the newly installed paint line effective September 1 st . |
| Approved to Mix Inventory | <ul style="list-style-type: none">• The face quality of the new panels will have no visual difference from previously painted products with TWH finish. <i>See image #1 above.</i> The new paint line also produces panels with painted edges. <i>See image #2 above.</i>• The new equipment allows our technical teams to thoroughly maintain paint application specifications, ensuring that there will be no visual impact to customer experience. It is acceptable to mix panels from previous paint booth with panels run in the new paint booth. |
