

# Reach New Heights

**The Radiant Pony works with companies around the globe to maximize their organizational effectiveness by enhancing the leadership, communication, and team building skills of their employees.**

Using horses in our training sessions offers a challenging and exciting way to promote lasting and profound change within your organization. In equine assisted learning, horses are not only the facilitators, they're teammates as well. The horses will show you how you operate and will provide opportunities to improve communication, team building, and leadership skills. Horses mirror human behavior in a gentle and clear way and without bias. They don't care about gender, political bent, education or status and they're always honest.

Our trainings are customized to deal directly with your needs. Your training will run between 4 to 6 hours, depending on the goals and objectives.

Provides insight into group dynamics and unconscious bias  
Creates an appreciation for differences and diversity  
It's loads of fun and makes learning about yourself easy to digest

### What our clients have to say:

"It's been over 4 years since I took the training with the horses. I still think about it almost everyday.

What a life changer."

-Delorie

"The Program helped our team recognize effective leadership and how to communicate clearly and effectively."

-Michelle
