CerPrint 3710 Ceramic Decal Printers

One printer, two colors. Swap the cartridge for True Black or True Blue.

Reach beyond sepia ceramic decal images and expand your creative possibilities!

Rosetta Technologies NEW CerPrint 3710 ceramic decal printers are the only affordable laser printers on the market today that can print decals firing to **True Black** or **True Blue**.

Now studio potters, students, and hobbyists can easily create stunning, food-safe images on ceramic, glass, enamel, and porcelain objects using fluxed decal media and Rosetta Technologies' exclusive ceramic toners designed expressly for the modern ceramic artist.

The **CerPrint 3710 Black** creates true black and crisp grayscale images ready for firing. The **CerPrint 3710 Blue** produces true blue images ready for firing. Affordable and versatile, the black and blue ceramic toner cartridges can be used in either printer, so you only need to purchase one printer. Simply swap cartridges to create images in the other color.

Two types of one-step waterslide decal papers are available; **Low Fire** for use with ceramic, glass, and enamel pieces, and **High Fire** for use with stoneware and porcelain. Both produce a clear, vitreous overcoat

Packages include one printer, one toner cartridge, and a starter pack of High Fire decal paper

- ✓ **Create decals for almost any type of ceramic substrate** – glazed, unglazed, glossy, and matte
- ✓ **Superior image quality.** Sharp, high resolution laser printed decals
- ✓ **Unmatched flexibility.** Print purchased images or create original decal designs using your favorite design software
- ✓ **Durable & food-safe.** Perfect for dinnerware, coffee mugs, serving trays, and promotional items
- ✓ **Consistent Results.** Excellent for small sets and limited series as well as one-of-a-kind pieces
- ✓ **Choose your color.** Black/grayscale and blue are available today; new colors coming soon

CerPrint 3710 Ceramic Decal Printer Specifications

Note: The CerPrint 3710 Black and CerPrint 3710 Blue are identical in all respects except for the color of the included toner cartridge. Either color toner may be used in either printer. Purchase an alternate color toner cartridge separately and freely switch between black and blue!
