

# Modoc Nation Summer Youth Camp 2021

## "Connecting To Our Past and Preparing For Our Future"

Modoc Families,

Our Summer Youth Camp is going to happen!!!! However, we are trying a different structure this year to try and keep people healthy and still involve as many kiddos as possible. Instead of a week of camp, we will have several different days stretched out through the summer weeks, so kids can sign up based on their interests and availability. We will allow ages 6-13 this year, but there will be days that just focus on the 6-9 or 10-13 age groups to let us provide the appropriate level of attention and support needed for activities to be successful. Our camp day will be split between learning Modoc cultural practices, history and language in the mornings, and then move to STEM (science, technology, engineering, math) activities in the afternoon. Please look over the days and activities on the flyer and let us know which ones you want to participate in. We are so excited to come together this summer!!!

We will hold camp at the MODOC GATHERING PLACE this year from 8:30am-4:00pm.

All camp activities will be free and lunches/snacks will be provided. We will need all kids who sign up for June 10 and/or June 22 to have a "Permission to Transport" form completed and on file.

Please reach out to us **if transportation is an issue**—we do not want our youth to miss out if we can find a way to avoid it.
