2022 Notice of Convention & Elections Letter Update

(May 17, 2022) NWSEO recognizes there has been a substantial delay in mail delivery of the 2022 Notice of Convention & Elections Letter. The letter, which was sent via bulk mail on April 25, 2022, has yet to be received by many of our members, and we understand the disruption this creates with the time sensitivity of the elections.

Currently, the United States Postal Service is working to resolve this and our printer is also aware of the issue. Unfortunately, we have no control over USPS protocol and cannot have this resolved as soon as we would like. In the meantime, an electronic version of the letter can be found here. Anyone can make nominations at any time prior to the deadline specified in the elections letter— you do not need to have received your elections letter in the mail in order to nominate someone.

Please review the elections letter online for specific details pertaining to officer and delegate nomination requirements. Remember, nominations must be submitted in writing, and nominations for regional officers also require submission via registered or certified mail and must be postmarked no later than Friday, May 27.

Thank you for your patience, and we look forward to receiving your nominations!
