

APPRAISAL FLOW CHART FOR DIMINISHED VALUE

www.WreckCheckAtlanta.com

Important:

This gives a general overview of the appraisal process in some situations this may vary.

Recommendation that may enable us to help you better:

When you send us your client information sheet, it would also be a good idea to collect and forward to us the estimate of repairs from the body shop and any improvements and reconditioning that may better describe your vehicles pre-loss condition and may add value to your vehicle. Also included in documentation may be any before the accident pictures of the vehicle.

Prior to the appointment of the post repair inspection, it is advisable for you to look over the vehicle yourself so that if you have any questions you can ask our inspectors while he is there.

During this process we request that you have all corresponding between you and the insurance company be in written for document purposes (email format works best) so that we can assist throughout the process.
