

## GUIDELINES FOR ARTISTS

PLEIN AIR DAY April 28, 2019

- Everyone from budding to accomplished artist is welcome to participate.
- A parent or guardian must supervise students under the age of 16.
- No pets.
- Artwork may be done in any medium you wish.
- Create artwork by yourself or in a group.
- Stay in one place, stroll from spot to spot, work at one site or visit each.
- Please visit only designated areas.
- Please bring all your own equipment as well as lunch, snacks and water. These will not be available at the locations.
- Please defer to the property owners when creating art on Linn Conservancy properties that are privately owned. These sites are some peoples' homes.

***“Take nothing; leave nothing but footprints.”***

- Please do not remove or disturb anything native to the sites (vegetation, animals, rocks). Let's leave it as we found it.
- Please leave absolutely no trash or waste at the sites—including water or solvents used to clean brushes. Bring a container for waste liquid and take it home. Trash bags in which you may place your waste are included in your Event Packet.

Continuing the Plein Air Event for the week of April 28 through May 4, plein air artists are invited to return to the Dale/Engle/Walker property and Koons Property, as well as the Shamokin Mountain Trail and Shikellamy State Park; both sites are open to the public. Artists are encouraged to visit this wonderful site to paint majestic vistas of the Susquehanna River.

Artists are invited to present completed works begun at any of the sites from April 28 through May 4 to be displayed at The Public Library for Union County during the month of June. Guidelines for displaying those works are included in your Event Packet and are available at our websites.
