ASSEMBLY BILL NO. 305—ASSEMBLYMAN OSCARSON

MARCH 13, 2015

Referred to Committee on Health and Human Services

SUMMARY—Authorizes and provides for the regulation of community paramedicine services. (BDR 40-167)

FISCAL NOTE: Effect on Local Government: May have Fiscal Impact. Effect on the State: Yes.
Sec. 2. "Community paramedicine services" means services provided by an emergency medical technician, advanced emergency medical technician or paramedic to patients who do not require transportation to or services at a hospital and provided using mobile equipment and in a manner that is integrated with the health care and social services resources available in the community. Such services may include, without limitation, transportation to a facility other than a hospital, which may include a mental health facility, and the provision of health care services provided to patients on a scheduled basis.

The National Death Rate for heart attack patients this reporting period was **14.2%**.
The National Average Payment for heart attack patients this reporting period was **$21,791**.
Bundled Payments for Care Improvement (BPCI) Initiative: General Information

The Bundled Payments for Care Improvement (BPCI) initiative is comprised of four broadly defined models of care, which link payments for the multiple services beneficiaries receive during an episode of care. Under the initiative, organizations enter into payment arrangements that include financial and performance accountability for episodes of care. These models may lead to higher quality and more coordinated care at a lower cost to Medicare.

#2 – Reform for Real

- Community Paramedicine/MIH has some legislative victories

- SGR fix and Burwell’s manuscript mean reform is here for real

- Hospital interest coupled with technologic advancements make value-based EMS a real proposition
#3 Narcotic Dependence and Overdose

- Scope of the problem
- Potential solutions
- Data integrity

Summary of #3

- Narcotic overdose with subsequent morbidity and mortality have reached dangerous levels

- Community groups are working to remedy the problem

- We must work with them to assure adequate data collection and appropriate attribution of intervention success
#4 Advocacy

“First they came for the Socialists, and I did not speak out, because I was not a Socialist.

Then they came for the Trade Unionists, and I did not speak out, because I was not a Trade Unionist.

Then they came for the Jews, and I did not speak out, because I was not a Jew.

Then they came for me, and there was no one left to speak.

-- Martin Niemoller

“(1) IN GENERAL.—For the purpose of enabling field EMS practitioners to dispense controlled substances in schedule II, III, IV, or V to ultimate users receiving field EMS, the Attorney General shall, at the request of the field EMS agency employing such practitioners, register such field EMS agency under section 303(f) in lieu of registering the individual practitioners or one or more medical directors of such agency.
“(2) SINGLE REGISTRATION.—In registering a field EMS agency pursuant to this section, the Attorney General shall require a single registration, not a separate registration for each location of the field EMS agency.
“(2) Controlled substances may be administered by the field EMS practitioners of a registrant field EMS agency in the course of providing field EMS pursuant to a standing order issued by one or more medical directors of such agency."
“(3) In the case of administering a controlled substance pursuant to paragraph (2), the medical directors of the registrant field EMS agency shall not be required—

“(A) to be present; or

“(B) to provide a written or oral prescription with regard to a known individual before or at the time of such administering.
“(2) MOVEMENT AND DELIVERY.—The registrant field EMS agency may move or deliver controlled substances within the possession of such agency between any locations of such agency. A registrant field EMS agency shall not be treated as a distributor of controlled substances under this Act by reason of such movement or distribution.
#5 International Outreach

- Havana, Cuba
- Mexico City, Mexico
- Taipei, Taiwan
NAEMSP Medical Director’s Course
Havana Deluxe

- Primary clinic – one general practitioner for every 1,000 citizens. Responsible for total health – conducts house calls, taxi vouchers, calls for EMS when needed

- Polyclinic – GP, Pediatrics, Surgery – 24/7 operation, planned and unplanned care

- Acute Care Hospital – similar to US model with specialty center designations, etc.

- 90% of EMS transports are from Primary or Polyclinics, 10% from the patient’s home
