

## ASBESTOS AWARENESS

1/2 Day

This course will suit any person who is likely to be exposed to asbestos within the course of their job role and needs a greater understanding and awareness of the dangers that asbestos poses. This includes joiners, plumbers, electricians, maintenance operatives and labourers.

### The programme will include:

- Part 1: Setting the scene / facts and figures about asbestos
- Part 2: Review the use of asbestos in the construction industry.
- Part 3: Describe the risks of exposure
- Part 4: Methods for controlling risks – ways of working with asbestos
- Part 5: License requirements
- Part 6: Brief overview of Duty to manage asbestos
