

IOSH Working Safely

1 day

Who should attend?

This course is for employees from any industry sector who have no supervisory or managerial responsibilities.

Course Content

The training course is split into four modules:

- Introducing working safely
- Defining hazard and risk
- Identifying common hazards
- Improving safety performance

After completing the modules you will understand more about:

- The reasons for working safely
- What hazards are
- The main hazard categories
- What risk is
- What risk assessment is
- Your options for dealing with risks
- Common hazards encountered in the workplace
- Key responsibilities for improving health and safety
- Key organisational arrangements for improving health and safety

Mock Exam and Mock Hazard Spotting Exercise

The course includes a mock exam and mock hazard spotting exercise to help you prepare for the final assessment.

Exam

The course includes the IOSH Working Safely Exam. Please see the assessment section for more information.

Hazard Spotting Exercise

The course includes the IOSH Working Safely Hazard Spotting Exercise.
