ALL NATURAL FERTILIZER

Fruit Tree™

6-2-4

NET WT 5 LB (2.27 kg)
Fruit Tree is specially formulated to encourage productive home orchards full of the delicious and nutritious tree fruits now popular in many backyard gardens. Down To Earth’s Fruit Tree fertilizer provides primary nutrients for plant growth plus added calcium for proper fruit development, so you can enjoy bountiful crops of home grown fruit. From apples, pears and plums to mangos, pomegranates and figs, Fruit Tree can be used on all varieties of fruiting canes, shrubs and trees.

| Pome Fruit (Apples, Pears, Asian Pears, Quince) | For non-bearing fruit trees - Years 1-3 after transplanting  
Do not mix fertilizer into planting hole. Apply 1 cup of Fruit Tree fertilizer per inch of trunk diameter just after blooming finishes in spring. Apply evenly to soil around the tree, starting a foot from the trunk and working outward toward the dripline. Make two repeat applications at one month intervals for a total of 3 cups of fertilizer per inch of trunk diameter per year. |
| Stone Fruit (Peaches, Plums, Cherries, Nectarines, Apricots) | For non-bearing fruit trees - Years 1-3 after transplanting  
Do not mix fertilizer into planting hole. Apply 2 cups of Fruit Tree fertilizer per inch of trunk diameter just after blooming finishes in spring. Apply evenly to soil around the tree, starting a foot from the trunk and working outward toward the dripline. Make two repeat applications at one month intervals for a total of 6 cups of fertilizer per inch of trunk diameter per year. |
| and Other Fruit (Figs, Kiwis, Mangos, Papaya, Starfruit)     | For bearing fruit trees - Years 3+  
Apply up to 2.5 lbs of Fruit Tree fertilizer just after blooming finishes in spring. Apply evenly to soil around the tree, starting 1 foot from the trunk and working outward to the drip line. Make one repeat application in mid-summer for a total of 5 lbs of fertilizer per year. |
| For bearing fruit trees - Years 3+  
Apply up to 4 lbs of Fruit Tree fertilizer just after blooming finishes in spring. Apply evenly to soil around the tree, starting 1 foot from the trunk and working outward to the drip line. Make one repeat application in mid-summer for a total of up to 8 lbs of fertilizer per year. |

WHAT IS “N-P-K”?

NITROGEN (N) - Nitrogen is necessary for lush, green, leafy growth. An excess, however, will promote vegetative growth at the expense of fruit or flowers. Nitrogen is generally applied at higher concentrations in early growth stages. Use Down To Earth Bat Guano, Blood Meal or Feather Meal.

PHOSPHORUS (P) - Phosphorus will promote big, bright blooms and enhanced fruit production. Phosphorus is essential for fruiting, flowering, strong root growth and quality seed development. Use Down To Earth Fish Bone Meal or Seabird Guano.

POTASSIUM (K) - Potassium, or Potash, helps produce strong sturdy plants and quality fruit. Potassium naturally increases a plant’s resistance to all types of stress and is vital for cell growth and carbohydrate metabolism. Use Down To Earth Kelp Meal or Langbeinite.

TOTAL NITROGEN (N)  6.0%  
0.8% Water Soluble Nitrogen  
5.2% Water Insoluble Nitrogen  
AVAILABLE PHOSPHATE (P2O5)  2.0%  
SOLUBLE POTASH (K2O)  4.0%  
CALCIUM (Ca)  8.0%  
MAGNESIUM (Mg)  0.5%  
0.5% Water Soluble Magnesium

Derived from: Feather Meal, Fish Bone Meal, Calcium Carbonate, Langbeinite, Potassium Sulfate, Alfalfa Meal and Kelp Meal

ALSO CONTAINS NON-PLANT FOOD INGREDIENT(S):

2.5% Humic Acids derived from Leonardite

Listed by the Organic Materials Review Institute (OMRI) for use in organic production.

F002174

Use of a dust mask is recommended for application of any dry fertilizer product.
