

Nicole M. Gatto

PO Box 292557, Los Angeles, California, 90029 (323)244-6039

email: nicole.gatto@cgu.edu web: www.nicolemgatto.com

I am an epidemiologist with a breadth of training and experience across the health sciences, which I have applied to academic, clinical, governmental, non-profit and private sector settings. My research focuses on environmental, genetic and lifestyle risk and protective factors for diseases impacting aging populations, specifically Parkinson's disease, dementias/cognitive impairment, cancer and cardiovascular disease. I additionally have a special interest in health promotion interventions for childhood obesity prevention among Latino and low-income populations.

EDUCATION

Ph.D., Epidemiology, University of Southern California, 2008

M.P.H., Community Health Sciences (major), Epidemiology (minor), University of California, Los Angeles, 2003

B.A., Biological Psychology, University of California, Berkeley, 1995

CERTIFICATIONS

Certificate in College Teaching, Preparing Future Faculty, Claremont Graduate University, 2019

Certificate in Public Health, National Board of Public Health Examiners, 2012 – current

CITI (Social & Behavioral Research; Responsible Conduct of Research; IRB Chair; IRB Members; Institutional/Signatory Official: HSR; Conflicts of Interest; Health Information Privacy & Security), current

SAS Base Programmer, SAS Institute, 2012

Geographic Information Science, University of Southern California, 2006

PROFESSIONAL EXPERIENCE

Associate Professor, 2016 – present

Director of PhD Program in Health Promotion Sciences, 2018 - present

Director of DrPH Program, 2016 – 2018

School of Community and Global Health, Claremont Graduate University

- Design, conduct and execute epidemiologic research studies including analyzing data using biostatistic principles. Apply biostatistical and survey techniques and biologic theory to describe and investigate the distribution and determinants of disease and health in human populations
- Teach epidemiology and environmental health courses to masters and doctoral students
- Direct doctoral programs: admissions, academic advising, curriculum and program development, further develop doctoral program guidelines and handbook; responsible for 32 doctoral students
- Develop advanced integrative practicum for DrPH program through partnerships
- Assist with CEPH accreditation and Decennial review of PhD program including contributing to self study, final and interim reports, curriculum mapping and response to external site visit teams
- Assist with strategic planning for school and university
- Successfully pivoted to teaching remotely during the COVID-19 pandemic

Associate Professor of Epidemiology, 2013 – 2016

Director of PhD Program in Epidemiology, 2013 – 2015

School of Public Health, Loma Linda University

- Research risk and protective factors within the Adventist Health Study-2 cohort study
- Teach environmental and occupational epidemiology course to masters and doctoral students
- Teach Doctoral Seminar in Epidemiology to doctoral students (DrPH and PhD)

- Direct the doctoral program: admissions decisions, curriculum development, write and grade doctoral comprehensive examinations, develop doctoral guidelines; catalog changes, refine graduate programs
- Direct public health practice and service projects
- Assist with CEPH accreditation self-study

Health Researcher/Program Evaluator – Little Green Fingers Community Garden Collaborative, 2012 – 2017

- Develop and lead a research study on the health impacts of participating in one of eight community gardens by families and their children aged 0-5 years
- Provide descriptive statistics on all garden members to First 5 biannually
- Manage small team of project assistants in data collection, management, entry and analysis
- Present results at conferences, forums, papers and reports

Epidemiologist – Acute Communicable Disease Control, Los Angeles County Dept of Public Health, 2011 – 2012

- Lead and coordinate epidemiologic surveillance of influenza and other respiratory viruses for Los Angeles County using data from laboratories, mortality reports, emergency room visits and other syndromic sources
- Conduct epidemiologic investigations of communicable disease outbreaks; draft control recommendations;
- Lead lab surveillance of influenza and other respiratory viruses with ten sentinel laboratories
- Build and manage relational disease surveillance databases using MS Access and Excel
- Prepare reports of epidemiologic investigations detailing study design, methods, data collection, environmental health factors and control recommendations; maintain electronic disease outbreak logs
- Review, monitor and summarize case reports, health statistics, demographic information and laboratory test results to identify possible disease trends

Adjunct Professor – Department of Health Sciences, California State University, Northridge, 2012

- Teach introductory epidemiology course to undergraduate, graduate and professional students of diverse backgrounds

Assistant Researcher - Department of Epidemiology, Fielding School of Public Health, UCLA, 2010 – 2012

- Research environmental, occupational, behavioral and genetic risk and protective factors for Parkinson's disease and cognitive dysfunction using data from three population-based studies
- Communicate findings in written manuscripts and oral presentations
- Teach graduate seminars focusing on topics including Environmental Epidemiology, Epidemiologic Methods
- Collaborate with investigators from other institutions, coordinate project-related tasks
- Project management including developing and maintaining project budgets, adhering to schedules, sub-contracts, supervising PhD students and administrative staff

Senior Scientist – ToxStrategies, 2009 – 2010

- Contribute technical expertise in area of environmental and occupational epidemiology and biostatistics
- Prepare written communications including technical reports, memos and manuscripts
- Develop, manage and coordinate project proposals including tasks, schedule, budget and deliverables

Post-Doctoral Fellow - Department of Epidemiology, UCLA, 2008 – 2010

- Study environmental, occupational, genetic risk factors for Parkinson's disease with data from three studies
- Communicate findings in manuscripts and presentations
- Supervise PhD students and administrative staff

Senior Scientist – Exponent, 2003 – 2009

- Contribute technical expertise in area of environmental and occupational epidemiology and biostatistics
- Review scientific literature to evaluate potential human health risk
- Prepare written communications including reports, technical memos and manuscripts

Project Manager - Center for Health Policy Research, University of California, Los Angeles, 2001 – 2003

- Manage the California Health Interview Survey of complementary and alternative medicine study
- Design and pilot test questionnaire
- Assist with IRB and OMB application submissions
- Contribute to research proposals, analyses and journal articles; develop study reports
- Act as a site liaison for collaborators at NIH, Westat, and with UCLA survey staff

Intern - HIV Epidemiology Unit, Los Angeles County Department of Health Services, 2002

- Provided education and training to laboratory staff and health care providers
- Developed an evaluation tool to assess the effectiveness of training presentations
- Designed an electronic database for data management
- Responded to phone inquiries, disseminated educational materials, conducted on-site training

Research Associate - Department of Radiology, Univ of California San Francisco VA Medical Center, 1998 – 1999

- Perform MRI and spectroscopy studies for patients with neurological diseases and dementias
- Recruit and enroll study participants, obtain clinical information from collaborating centers
- Analyze, transfer and archive data using both commercial and custom software
- Process MR images and spectroscopic data: segment brain, identify lesions, perform hippocampal voluming, apply Fourier transformations, “fit” NMR spectral peaks

Clinical Research Assistant - Baxter Healthcare Corporation, Novacor Division for Cardiovascular Research, 1998

- Assist in compiling a pre-marketing approval submission to the FDA (Medical Devices)
- Write case summaries for patients who received a left-ventricular assistive device (LVAD)
- Manage and track patient files including case report forms, medical records, correspondence
- Database administration: data entry, management, and quality control

Clinical Coordinator - Department of Neurology, University of California San Francisco, 1995 – 1998

- Recruit, screen and enroll eligible families; collect family history information; construct pedigrees, write clinical summaries, acquire and coordinate acquisition of blood samples and lab results
- Maintain study database
- Coordinate collaboration with eighteen participating sites
- Design, publish and distribute newsletters, bulletins and brochures
- Generate reports for papers, meetings and conferences
- Ensure compliance of IRB and Human Subject's Committee; update protocol consent forms

Instructor - Testing for the Public, 1997 – 2001

- Taught a Graduate Record Examination (GRE) preparatory course to diverse students
- Created and delivered lectures; developed teaching materials including course notes and study guide

Research Associate - University of California San Francisco/Mt. Zion Multiple Sclerosis Center, 1994 - 1995

- Perform brief neuropsychological assessments; administer neuropsychological evaluations
- Design and maintain clinical database; extract data for papers and presentations

TEACHING

School of Community and Global Health, Claremont Graduate University, July 2016 – present

- CGH 302 – Epidemiology (4 units)
- CGH 314 – Emerging Chronic and Infectious Disease Epidemiology (4 units)
- CGH 304 – Environmental and Occupational Health (4 units)
- CGH 403 – Manuscript Development
- CGH 406 – Advanced Public Health Practicum (0 units)

- CGH 407A, B, C – Advanced Integrative Public Health Practicum (0 units)
- numerous guest lectures

Loma Linda University School of Public Health, 2013 – 2016

- EPDM 588 Environmental and Occupational Epidemiology (3 units)
- EPDM 606 Doctoral Seminar in Epidemiology (1 unit)

California State University, Northridge, 2012

- HSCI 488 Epidemiology: Study of Disease (3 units)

MENTORSHIP

<u>Dates</u>	<u>Student Name (Program)</u>	<u>Project</u>	<u>Role</u>
6/2020 -	Amay Singh (DrPH, Claremont Graduate University)	Dissertation Project	Member, Dissertation Committee
4/2020 -	Spencer Loong (PhD, Clinical Psychology, Loma Linda University, School of Behavioral Health)	Dissertation Project	Member, Dissertation Committee
10/2019 -	Cecilia Rocha (MPH, Claremont Graduate University)	Independent research project	Mentor
10/2019 -	Niribili Sarmah (MPH, Claremont Graduate University)	Independent research project	Mentor
1/2020 -	Michael Espero (PhD, Health Education & Promotion, Claremont Graduate University)	Directed Research Project	Mentor
9/2019 -	Ann Nguyen (PhD, Clinical Psychology, Loma Linda University, School of Behavioral Health)	Dissertation Project	Member, Dissertation Committee
9/2019 – 12/2019	Samhita Kadiyala (undergraduate, Scripps College)	Independent research project	Mentor
6/2018 -	Pamela Ogata (PhD, Health Education & Promotion, Claremont Graduate University)	Dissertation Project	Member, Dissertation Committee
5/2018 – 9/2019	Brittany Lytle (DrPH, Claremont Graduate University)	Independent research project	Mentor
8/2016 – 5/2017	Wendy Mata Dominguez (MPH, Epidemiology & Biostatistics, USC)	Little Green Fingers	Preceptor, MPH practicum
1/2017 – 5/2017	Meena Adaikappan (MPH, Epidemiology & Biostatistics, Claremont Graduate University)	Pesticide Use and Brain Cancer Meta-Analysis	Mentor
9/2016 – 12/2016	Aileen Dinh (undergraduate student, Claremont McKenna College)	Food Establishment Characteristics, Health Behaviors and Health Outcomes in Urban Areas of the United States: A Systematic Review of the Literature	First Thesis Reader

1/2016 – 6/2016	Dennys Estevez (MPH, Health Education & Promotion, Loma Linda)	Efficacy of Employer-Based Smoking Cessation Programs: A Meta-Analysis	Co-Advisor, MPH project
6/2015 - 12/2015	Kristin Arthur (DrPH, Epidemiology, Loma Linda)	Effect of Parent Engagement on LA Sprouts Outcomes	Mentor
9/2014 – 6/2015	Nicole Alexander (MPH, Health Education & Promotion, Loma Linda)	Think Together: Whole Child Wellness Program pilot project	Preceptor, MPH practicum
9/2014 – 6/2015	Marian Ramzy (MPH, Epidemiology & Biostatistics, Loma Linda)	Air Pollution and Depressed Mood (Applied Research)	Mentor
1/2015 – 6/2015	Hassan Alalaq (PhD, Epidemiology, Loma Linda)	Pesticide Use and Adverse Health Outcomes (Research)	Mentor
1/2013 – 5/2015	Lauren Cook Martinez (PhD, Health Education & Promotion, USC)	Design and Methodology of the LA Sprouts nutrition, cooking and gardening program for Latino youth: a randomized controlled intervention	Co-Advisor, Research project
1/2015 – 5/2015	Morgan Keefe (MPH, Epidemiology & Biostatistics, USC)	Little Green Fingers	Preceptor, MPH practicum
1/2015 – 5/2015	Athena French (MPH, Epidemiology & Biostatistics, USC)	Little Green Fingers	Preceptor, MPH practicum
9/2014-12/2014	Monique Chavez (MPH, Health Education & Promotion, Loma Linda)	Think Together: Whole Child Wellness Program pilot project	Preceptor, MPH practicum
1/2014 – 6/2014	Markeith Pilot (MPH, Health Education & Promotion, Loma Linda)	NIS Hospitalization Study on Parkinson’s Disease Morbidity and In-Hospital Mortality	Co-Advisor, MPH project
9/2012 - 12/2012	Lilian Sie (MPH, Epidemiology & Biostatistics, UC Berkeley)	Hospitalizations Due to Hepatitis C in Los Angeles County, 2007-2009: Case Characteristics and Factors Associated with Mortality	Co-Advisor, MPH project

SERVICE

Interim Chair, IRB, Claremont Graduate University, 2020 –

Member, The Claremont Colleges COVID-19 Safety Planning Group, Testing Subcommittee, 2020-

Member, Scholarship of Teaching and Learning (SoTL) Task Force Course and Teacher Evaluation Working Group, Association of Schools & Programs of Public Health (ASPPH), 2019 - 2020

Member, IRB, Claremont Graduate University (CGU), 2018 – 2020

Member, PhD Decennial Review Committee, School of Community and Global Health, CGU, 2019-2020

Member, Search Committee, School of Community and Global Health, CGU, 2018 – 2019

Member, University Grievance Committee, CGU, 2018

Member, Research Grievance Committee, CGU, 2019

Member, MPH/DrPH Curriculum Committee, School of Community and Global Health, CGU, 2016 –

Member, Diversity Committee, School of Community and Global Health, CGU, 2018 –

Member, CEPH Accreditation Self-Study Committee, School of Community and Global Health, CGU, 2016 – 2017

Member, MPH Program Community Advisory Committee, School of Community and Global Health, CGU, 2016 –

Member, MPH Program Steering Committee, School of Community and Global Health, CGU, 2016 –
Member, Board of Trustees Chairperson’s Faculty Advisory Group, CGU, 2017 - 2020
Chairperson, Doctoral Committee in Epidemiology, School of Public Health, Loma Linda University, 2014 – 2015
Member, Faculty of Graduate Studies Dean’s Award Selection Committee, Loma Linda University, 2015 – 2016
Member, Doctoral Programs Committee, School of Public Health, Loma Linda University, 2015 - 2016
Member, Rank, Promotion and Tenure Committee, School of Public Health, Loma Linda University, 2015 – 2016

Symposia Reviewer, American Public Health Association, Annual Meeting, Boston, 2013

Board Member, Debs Park Advisory Board, 2012 – 2013

Advisory Board Member, Farmworks, 2010 – 2011

Founder and Director, Milagro Allegro Community Garden, 2008 – 2011

- Lobbied elected officials, community organizations and local municipal officers
- Built garden including designing a layout that would incorporate elements important for urban farming as well as for appearing inclusive to and inviting for the local community; planned construction of garden including identifying building materials that would be both environmentally and financially appropriate; coordinated efforts with volunteers and a Los Angeles chapter of jobs program for youth
- Fundraised and wrote grants to support an operating budget for the garden
- Managed general garden operations budget, project-specific and grant-specific budgets
- Established garden rules, application process, structure and organization of garden for day-to-day operations; Develop by-laws and operation manual for garden
- Developed community education programming for the neighborhood and gardening communities
- Collaborated with partners to involve garden in diverse opportunities that extend the reach of the garden including eco-tours, film screenings, community potlucks, fundraisers, seedling and tree giveaways
- Lectured at conferences, taught seminars and courses on topics relevant to the garden
- Developed material for garden website; maintained website
- Designed print, electronic and other media for outreach; maintained mailing list, events calendar
- Mentored youth on various garden-related and garden art projects

Public Health and Safety Director (elected office), Historic Highland Park Neighborhood Council, 2008 – 2010

Volunteer, Emergency (humanitarian organization), 2008 – 2013

Volunteer, Eagle Rock Farmer’s Market, 2006-2010

Vegetarian Dietary Patterns and progression in Parkinson's disease

This proposed hospital-based epidemiologic study of PD cases with established diagnoses by movement disorder specialists takes advantage of a special exposure population. We will collect data during regular clinic visits to characterize vegetarian dietary patterns and make use of existing patient data to test hypotheses related to diet and PD progression. We will explore whether periodic or regular adherence to one or more type of vegetarian dietary pattern across the lifespan could influence disease severity.

Loma Linda University- Research Affairs

The effect of aging and dietary pattern on blood-brain barrier integrity

Using data from an ongoing study (AHS-2 CAN), we will recruit two groups (with low and high PUFA levels) who will then have a follow up cognitive assessment (approximately 1 year after their AHS-2 CAN assessment), allowing us to examine longitudinal changes in cognitive function. Additionally, all participants will undergo MRI scanning, from which we will derive BBB integrity and multiple other markers of brain health, including measures of brain volume, white matter structural integrity, and iron deposition. The relationships between omega-3 PUFA serum levels, BBB integrity, cognitive decline, and MRI biomarkers will be examined.

Role: Co-I

Dietary Patterns and Cognitive Dysfunction in the Aged: Adventist Health Study-2 \$37,500

We will develop and implement an approach to assess cognitive function a sample of older adult participants residing in southern California an average of 9 years after enrollment. We will then associate cognitive function with dietary patterns, adjusting for likely confounders.

UCLA American Parkinson's Disease Association

1/1/17 – 8/31/17

Pilot Grant (Bordelon)

Second follow-back study of newly identified cases of Parkinson's disease in the California Teachers Study

Conduct a diagnostic confirmation study of women with Parkinson's disease in the California Teachers Study (CTS) cohort. Describe the incidence and prevalence of PD among female teachers and administrators in California years during 1995-2012. Use existing data from the unique resource available in the CTS to estimate the effects of suspected and novel risk and protective factors for PD including reproductive history and estrogen use, sun exposure, NSAID and statin use, dietary factors, and environmental tobacco smoke.

Sunlight Exposure & Vitamin D Metabolic Gene Variations in Parkinson's Disease

Examine whether long-term low levels of vitamin D either through inadequate sunlight exposure or alterations in metabolic genes that influence physiological vitamin D levels increase the risk of PD using the NIEHS-funded Parkinson Environment Gene (PEG) study (368 cases, 401 population controls). Test associations between long-term UV exposure measures and PD, and examine whether genetic variations presumed to result in different physiological vitamin D activity in genes critical to the vitamin D pathway (*VDR*, *GC*, *CYP27A1*, *CYP27B1* and *CYP24A1*) increase the risk of PD. Preliminarily investigate gene-gene and gene-environment interactions.
