

What is the San Ramon Eagle?

The City of San Ramon has commissioned nationally recognized artist Brian Keith to create a public art piece - a 13' bronze eagle.

The San Ramon Eagle will be the largest bronze eagle in the State of California - a unifying figure and centerpiece for public events, patriotic remembrances and community gatherings.

As conceived by the artist, the San Ramon Eagle is posed in a majestic protection stance, bridging old and new communities in San Ramon and honoring the community's commitment to freedom, open space and natural wild life.

Meet the Artist

Brian Keith is an artist who got his start here in San Ramon, where he attended Neil Armstrong Elementary, Pine Valley Middle School and California High.

Keith has earned national recognition for his bronze works of art and was voted into the prestigious National Sculpture Society, a collection of the best sculptors from around the world. His bronze sculptures and oil paintings can be found in public and private collections throughout the United States.

He has been commissioned to create busts of the former President Ronald Reagan and the First Lady in the collection of the Ronald Reagan Presidential Library & Museum. His works are also featured nearby in Blackhawk, where he created seven life-sized bronze figures and the whimsical "Swan Tales".

Brian and his wife [Lanisa](#), an award-winning Christian singer and songwriter, continue to make their home in San Ramon. They have four children: Malia, Jordan, Teah, and Nathan.

Rancho San Ramon Park

The picturesque site at Rancho San Ramon Community Park is the centerpiece of a new and thriving community in the Dougherty Valley, offering meeting spaces, a sports complex, and a children's water park. Two eagle's nests were recently spotted in their natural habitat up the trail from where the San Ramon Eagle will be placed. Each year, thousands of individuals and families will see the sculpture.

Support the Eagle

In 2019, start-up funding from the City of San Ramon and generous donations from benefactor Fred Bruning provided 50% of the funding to bring the Eagle to San Ramon.

In 2020, a projected \$115,000 will need to be raised to place the Eagle in its final perch at Rancho San Ramon Community Park. These dollars will cover the cost of artist renderings, engineering, design, bronze casting, welding, transportation, delivery and installation of the sculpture.

A variety of sponsorship and community giving opportunities and associated benefits are being offered to bring the San Ramon Eagle home.

Sponsorship Levels

Majestic	-	\$25,000
Eagle's Perch	-	\$10,000
American Bald Eagle	-	\$5,000
White Tail	-	\$2,500
Eagle's Nest	-	\$1,000

Community giving opportunities are available [here](#).

"Majestic", a replica of the bronze eagle, is proudly displayed at Mountain View Village, Riverton, UT (2018)
