

## Pop-Up Selection in Settings

In order to log in to Event Pilot to view your online planner for Academy 2020 at Home, you must select “Allow Pop-Ups.” In Google Chrome, FireFox , or Safari, select the “Settings” button in your browser.

- This is typically three vertical dots, to the far right-hand side of the URL bar in your browser.
- When you click on the three dots, you’ll see “Settings” as an option to select.
- After doing this, select “Privacy and Security” on the right hand side.
- Choose “Site Settings.”
- Select “Pop-ups and Redirects.” Ensure you have this set to “Allowed.”

After completing these steps, you should be able to log in promptly. Once logged in, you will not need to log in again for the duration of the Academy 2020 At Home experience.
