

# HandPunch® GT-400

## Biometric Time & Attendance Terminal

### The industry's most reliable biometric just got better

The HandPunch® GT-400 brings the flexibility of a full-function time and attendance terminal together with the sophistication of the most robust verification technology available. To eliminate employees from punching in for one another, the HandPunch GT-400 uses the size and shape of your employee's hand to verify their identity each time they punch. No fingerprints or palm prints are utilized ensuring the privacy of each user.

### A cost-saving, easy-to-use solution

With the HandPunch GT-400, your hand is your badge. The cost of creating and administering badges is eliminated along with buddy punching (when one employee clocks in for another). The system ensures payroll accuracy by simply requiring each employee to be there to punch. The terminal is fast and easy for anyone to use.

### Cutting edge technology with a rich feature set

The HandPunch GT-400 uses an open architecture design coupled with standard features like a large display, programmable soft function keys and Ethernet connectivity. Coupled with our partner's solutions, the GT-400 is—hands-down—one of the most effective solutions for workforce management. This means daily, tangible benefits such as accurate record keeping, risk mitigation, and increased employee productivity that drives your bottom line and provides peace of mind for you and your employees.

### Features and Benefits

- 8 ATM-style soft function keys make dynamic labeling a snap
- 3.8 inch QVGA display lets users access more information per screen
- Large LED light bar for easier visual response
- Antimicrobial-infused platen, keypads and chassis
- Open architecture design enable maximum programming functionality
- Improved serviceability and uptime with remote diagnostic capability
- Employee self-service kiosk functions
- Real-time communications

Attendance on Demand, Inc. offers the popular Schlage HandPunch GT-400 Biometric Time & Attendance Terminal and adds unique communications capabilities and additional features. Attendance on Demand clocks are Internet-ready, allowing employee work times and transactions to be recorded and shared easily with Attendance on Demand. These HTTP-enabled time clocks communicate directly over the Internet with our hosted time and attendance service. They do not require any software installation at your site. These truly plug-and-play time clocks are:

- Quick to install.
- Easy to use, manage, and maintain.
- Reliable for collecting information.

Hardware Specifications	
Size:	8.0 in (20.32 cm) wide x 11.18 in (28.40 cm) high x 7.52 in (19.10 cm) deep
Weight:	5.8 lbs (2.63 kg)
Power:	10.8 to 13.5 VDC
Environment:	Operating: 32° F to 113° F (0°C to 45° C) Relative humidity: 5% to 85% NC Non-operating (storage): 14° F to 140° F (-10°C to 60° C);
Verification Time:	Less than one second
Template Size:	20 bytes
Communications:	Standard Ethernet 10/100 RJ-45 type connector
Data Management Keys:	8 programmable soft keys

Software Specifications	
Special Features	Software as a Service (SaaS) solution
	Centralized Database
	Hand Template Management
	Debug Logging
	Double-Punch Restriction
	Automated Data Synchronization
	Data Encryption
	Bell Scheduling
	Security Access
	Auxiliary Prompt Initiation Rules
	Special Enrollment
	Individual Employee Threshold
	Template Averaging
	Configurable Audio Response
Capacity: 1000 employees, 5000 transactions, and 3000 schedules	
Credential Inputs	PIN - ID (Digit Length)
	Barcode Card Reader (Code 3 of 9, 2 of 7)

Software Specifications	
Supervisor Capabilities	Add Punch For Specific Employee
	Add Schedule For Specific Employee
	Credit Hours for Specific Employee
	Credit Dollars for Specific Employee
	Lift Restriction for Specific Employee
	Global Time Restriction for Employees
	Display Employee Names, Badge Numbers, and the Date and Time of Each Employee's Last Punch (Sorted by employee last name)
Employee Capabilities	Display Employees who are Punched In with Their Names, Badge Numbers, and the Date and Time of Each Employee's Last Punch
	Complex Data Collection (time of day, hours, dollars, workgroup, date, selection list defined at configuration)
	Callback Punch
	Workgroup Transfer
	Employee Review (Last Punch, Schedules, Benefit Balances, Pay Designation Summaries)
	Request Time off (Vacation, Sick)
	Trigger Relay
Tip Entry
