

## RECOMMENDED SUPPLIERS

Aquila Retreat is not a licensed event venue, we are a licensed guest house. You may plan an experience for you and your guests whilst staying at the property, however, we require that you work with fully insured industry professionals in doing so.

All events taking place at Aquila must be approved by the property host or owners. Some events may require a council planning permit.

Events may only take place if you staying in the properties accommodation. Penalties will apply if notification is not provided by the guest that an event has been scheduled at the property.

Neighbours of Aquila must be respected at all times. Noise kept to a minimum and music must be shut down by 10pm. Thank you for your cooperation.

The owners of Aquila have worked with and trust the following suppliers.
