

South Platte Water Related Activities Program, Inc.

Industrial (Class I-3) Membership

(Oil & Gas Well Development in North Platte River basin)

2020 Reporting Form & Assessment Invoice

A. Instructions

Please fill in items A thru E on this form including the boxes provided below to calculate the assessment. Send payment **and a copy of this form** to the address listed in Section D.

Industrial Member Entity _____
Address _____
email Address _____
Phone Number _____
Submitted By _____ Date _____
Title _____

B. Jackson County Water Conservancy District Approval & Signature

1. Approved By:¹

District Representative

2. Annual Allocation of Consumptive Depletion Allowance
Approved by the District (acre-feet)

C. Calculation of Annual SPWRAP Assessment

1. Total Number of Oil & Gas Wells Anticipated to be
Drilled/Fracked or Re-Fracked in the Current Year

This is the total number of "occurrences" by new wells that were drilled/fracked, or existing wells that were refracked, located on Public or Private lands within the North Platte basin in Colorado by the industrial member.

2. SPWRAP Member Units

Ninety membership units per well. (Multiply #1 above by 90)

3. SPWRAP Assessment per Unit

This is the set assessment rate per member unit for 2020.

4. Calculated Assessment

Total amount due. (Multiply #2 by #3)

5. Minimum Assessment:²

\$50.00

6. 2020 SPWRAP Assessment³

Enter larger of #4 or #5 above

D. Payment of Assessment (Due by March 1st in 2020)

Payment of the annual assessment will provide membership in SPWRAP and coverage under the Platte River Recovery Implementation Program through calendar year 2020.

Please make check payable to "SPWRAP" and send to the following address:⁴

**SPWRAP
% Northern Colorado Water Conservancy District
220 Water Avenue
Berthoud, Colorado, 80513**

E. Reporting Information

- 1. Number of vertical wells drilled/fracked or re-fracked during previous year

 - a. Estimate of amount of water (acre-feet) used to drill/frack these wells

- 2. Number of horizontal wells drilled/fracked or re-fracked during previous year

 - a. Estimate of amount of water (acre-feet) used to drill/frack these wells

¹The Jackson County Water Conservancy District will review and authorize the water related activity associated with the proposed oil & gas well development in order to assure that the total North Platte Baseline entitlement will not be exceeded and will make the official determination of whether or not to approve any request to provide coverage under the North Platte entitlement.

SPWRAP will not process any application that has not received this authorization (signature) by the Jackson County Water Conservancy District prior to submitting this application to SPWRAP.

²SPWRAP has established a minimum annual assessment of \$50. If your entity did not have well drilling "occurrences" back to 2007, you are required to pay the \$50 minimum payment for each year back to 2007 and up to the year of the entities first well "occurrence." Annual assessments are required from that point forward to remain a member in good standing with SPWRAP.

³New Class I-3 Industrial members are required to pay an assessment for all wells previously drilled/fracked, including any existing wells that were refracked, from January 1, 2007 up to the year they join SPWRAP. This information must be entered into the Class I-3 "Supplemental" Assessment form which is available on-line at www.COSPWRAP.org

⁴If your entity requires a separate invoice please contact Daniel Gallen, dgallen@auroragov.org

Disclaimer: This reporting form may be revised in the future to reflect information needed to comply with Program requirements.
