Heritage Oak Dance Floor Specifications, Set-Up, & Cleaning Instruction

This portable dance floor is for all dance types and is easy to install and disassemble.

As a guideline only, 3'x3' panels when assembled into a floor will hold 1.5 people.

Oak Wood Panels 3'x3' - Weight 40 lbs - Aluminum Exterior Trim Panels.

Panels are joined together by utilizing a tongue and groove, T-6 aluminum feature strip that protects the wood edges of each panel.

This Dance Floor has a set-screw locking system that features a unique screw-thread insert for a tighter fit, superior stability, and maximum longevity.

DO NOT OVER TIGHTEN SET-SCREW.

Over tightening of the set-screw will result in damage to the insert and the Renter will be responsible for repairs or replacement of the panel.

Dance Floor shall only be placed on a hard flat surface free of debris such as gravel, rock, dirt or any other hard substance that may scratch or otherwise cause abnormal wear on the surface.

Dance Floor shall be placed in a location away from water hazards, such as pools or sprinklers.

If the threat of rain exists, the Dance Floor must be completely covered and secured from any water invasion or completely removed from the area and stored in a dry location.

It is the Renter's responsibility to take such action.

Any damage caused by water, scratches, or gouges to the Dance Floor will result in a full replacement charge for each damaged panel to the Renter.

To return, or have ready for pick-up, please have the Dance Floor free of debris, dirt, or any sticky substances. If needed, wipe Dance Floor with a clean damp cloth.

A minimum \$65.00 Clean Up Fee will be due if not returned clean.

I have read and understand these Specifications, Set-Up & Cleaning Instructions for the Heritage Oak Dance Floor.
