II. BACKGROUND

Tampa Bay Workforce Alliance, Inc. d.b.a. CareerSource Tampa Bay is a 501(c)(3) non-profit, tax-exempt organization, that is one (1) of twenty-four (24) local workforce development boards (LWDB) in the State of Florida. CareerSource Tampa Bay works to implement the strategic vision outlined within the Workforce Innovation and Opportunity Act (WIOA) which is focused on developing a business-first, intentional, and coordinated workforce development system that is inclusive of community and mandatory partners.

The Board of CareerSource Tampa Bay is comprised of representatives of businesses in Hillsborough County, local educational entities, labor organizations, community-based organizations, economic development agencies, one-stop partners, and other individuals deemed appropriate. III. SCOPE OF WORK

General Scope of Work

CSTB is seeking a consultant who will work with CareerSource Tampa Bay Executive Staff, Board of Directors, Hillsborough County, Partners, and participants to review the current service delivery methods and structure at the local level, with the goal of identifying “best practices” of service delivery, increase access points and opportunities for participants and employers to engage the system, and identifying industry recognized firewall and conflict of methods.

Specific Activities/Deliverables

1. The Consultant shall conduct a series of interviews with stakeholders to identify the respective service delivery systems that administer the local workforce development services and the associated funding streams. From a service delivery and administrative viewpoint, the consultant will develop a strategy to deliver those programs and services in an effective, efficient manner, taking into consideration identifications of potential costs savings as well as identification of appropriate firewall and conflict of interest structures.
2. The Consultant shall analyze the customer base, to include system participants (Job Seekers and Businesses), performance measures, governance structure, and stated purpose and use of funding for each program recommended for integration and identify those where “procuring services” would have the most impact on improving services. Also, prioritize those that could be outsourced with the least effort, resources, anticipated resistance, in addition to creating natural “firewalls” to ensure objective service delivery, cleanly separated from Administration and Fiscal responsibilities of CareerSource Tampa Bay.
3. The Consultant shall take an objective view of current delivery systems and methods. The aim is to design a “service delivery system” that may include a blend of outsourcing or contracting services through formal procurement of services as well as maintaining parts of the current, inclusive, service delivery structure. In making such recommendation, the consultant should assess and provide potential solutions to:
 - Logistical challenges to include fiscal, programmatic, functional supervision of staff, cost and program reporting for vendors and sub-recipients;
 - Managerial obstacles such as governance structure, related to state and federally funded staff as it relates to umbrella supervision;

- Programmatic obstacles such as different program goals, eligibility & reporting requirements for each funding source, dual enrollment procedures and “best practices”, etc.;
 - Provide the CareerSource Tampa Bay Administration, both staff leadership and Board objective information as to how other LWDA’s, similar in size and scope, operate and what areas are considered as “best practices” in service delivery; and the contractee’s ability to adapt to those suggestions in an expeditious manner.
4. The consultant shall deliver a plan for CareerSource Tampa Bay that describes:
- A comprehensive, service delivery system that is customer focused, market driven, performance based, and has clear views of all accessible conflict of interests and firewall structures to ensure total system transparency;
 - It must outline leadership, governance structure, authority, and accountability metrics. The anticipated results shall include a reduction or streamlining of administrative cost, increased customer satisfaction, an easier point of access for employers and job seekers to receive the full array of available services, and more effective use of public workforce investment funds;
 - Furthermore, the plan will include a strategy for inter-agency workforce development problem-solving, planning, and coordination to ensure continuity and sustainability;
 - Finally, the plan will also include a transition strategy that includes the projected cost of implementation, estimates of the time required for system transformation and recommended prioritization on which items to consider for implementation.
