

DETAILS OF FIRMWARE CHANGES

The CG-6 Autograv™ firmware version 20190125_2 has the following additions and changes:

Software Corrections:

- Fixed intermittent issue where meter would not show up as USB device
- Synchronize the ADS1259 on each 1PPS event, so that there will be no periodic sampling error

User Interface Additions/Changes:

- Added support for new key buttons "Back", "Home", "F1" and "F2" buttons.
- Added function assignment menus for new F1 and F2 buttons.
- Improved Navigation functions using F1, BACK, HOME and F2 buttons to navigate to "ACCEPT", "CLEAR", "<--" and "CANCEL" keys.
