	Total		100.00%

Procedure

Maintain temperature at 25° - 30°C for entire operation.

1. To a suitable vessel equipped with a cover and propeller mixer, add the water and begin stirring.
2. Slowly add each ingredient individually in the order listed. Be sure each ingredient is dissolved before adding the next.
3. Cover and continue mixing for 30 minutes after the last ingredient is added.
