[Additional Designations for the 2015 Ozone Standards](#)

[April 30, 2018](#) - Highlighting its commitment to collaborating with states, tribes, and localities to protect air quality, EPA is taking the next step in the Clean Air Act process to implement the national air quality standards for ozone that were issued in 2015. After designating most of the U.S. as meeting the standards in November 2017, the Agency is now completing nearly all remaining area designations. Eight counties in the San Antonio, Texas area will be designated by July 17, 2018. Read communications between EPA and [states](#) and [tribes](#) as well as technical support documents.

Editor's Note: You can find information on specific areas starting on [page 29](#) within this document.

Reuters - [EPA designates areas non-compliant with 2015 ozone standards](#)

[Guidance for Significant Impact Levels for Ozone and Fine Particle Pollution finalized](#)

The EPA has finalized the guidance and supporting documents recommending Significant Impact levels (SILs) for ozone and fine particle pollution that may be used in the Prevention of Significant Deterioration (PSD) permitting program. SILs have been used in the PSD permitting process for many years to help permit applicants and permitting authorities determine whether proposed construction may be authorized in a Clean Air Act (CAA) permit. These improvements will potentially reduce the cost and time for manufacturers to obtain this type of air pollution permit from states, local permitting authorities and EPA.

[EPA has signed a proposal to amend the 2016 federal implementation plan \(FIP\) for managing air emissions from new and modified true minor oil and natural gas sources in Indian country.](#) The proposed amendments would extend the FIP's coverage to the entire Uintah and Ouray Reservation, including portions of the reservation that the agency has designated as nonattainment for the 2015 national ambient air quality standards for ozone. The current FIP applies only in areas designated as attainment, attainment/unclassifiable or unclassifiable. Extending this coverage will ensure that the streamlined construction authorization

process the FIP provides continues to be available for certain true minor oil and gas sources locating on the Uintah and Ouray Indian Reservation. EPA intends to propose a separate rule later this year that would address emissions from oil and natural gas sources on the entire Uintah and Ouray Indian Reservation to protect public health and the environment.

UPCOMING CALLS/EVENTS

Ambient Air Quality/EPA/NTAA/Tribes

EPA Consultation Process for Tribes: Proposal to Require Full Application Package with Initial Application for Assistance Agreements in Grants.gov

EPA Lead Organization: OARM - Office of Administration and Resources Management.

Start Date: 04/30/2018

End Date: 06/22/2018

Official notification of consultation will be sent to tribal governments potentially affected by this action.

To obtain additional information about this action and other EPA consultations on going or planned. [Click here to open "published list of consultations."](#) The EPA contact for this list is [Dona M Harris](#) American Indian Environmental Office/Office of International and Tribal Affairs.

Tribal Grants Education and Technical Assistance Webinar Series Second Wednesday of Every Month at 1pm ET [For more information, click here!](#)

The Health Resources and Services Administration (HRSA) is hosting a FREE Grants Education and Technical Assistance Webinar Series for Tribes, Tribal Organizations, Indian Health, Tribal and Urban Indian Health Programs. Learn about the federal grant application process, how to write better grant proposals and evaluation plans for your projects, strategies for successful grant management, and more. Participants will also have the opportunity to connect with HRSA subject matter experts, grant reviewers, as well as peers to discuss best practices and barriers to successful grants application and management.

Webinars will be held the second Wednesday of every month from 1:00pm to 2:30pm ET - view the list of topics below:

- May 9: Writing a Competitive Grant Application
- June 13: Applying for a HRSA Grant
- July 11: Writing a Successful Evaluation Plan for Your Grant Application
- August 8: Preparing a Budget for your Grant Proposal
- September 12: Effective Grants Management/Administration & Reporting

- October 10: Successful HRSA Tribal Grantees

You must register to access the recording. Register here:

https://hrsa.connectsolutions.com/federal_grant_application_recording/event/registration.html. For more information, please contact Nancy Rios at nrios@hrsa.gov.

2018 EPA Region 6/State National Clean Air Act Inspector/Enforcement Officer Training Workshop

The workshop will be held on May 8-10, 2018. Your registration from this site allows you access to all workshop sessions, either on-site in the EPA Region 6 Office in Dallas, Texas or via Adobe Connect Webinar over the internet. [Click here](#) to register for the Workshop and to review the agenda, logistics, and workshop description.

EPA Workshop & Webinar: Deliberating Performance Targets for Air Quality Sensors

Date and Time: Monday, 06/25/2018, 9:00AM EDT to Tuesday, 06/26/2018, 5:00PM EDT

[Click here for more information](#) from EPA's website.

Environmental Finance Center West (EFCWest) is offering FREE one-day managerial trainings, technical assistance workshops, and opportunities for one-on-one technical support for California tribes.

Please help us customize the workshops to address your specific needs! Click the link below to take our short survey: [EFCWEST TRIBAL PRE-WORKSHOP SURVEY](#). For more information, please visit our [CA Tribal Resilience webpage](#).

Navajo Nation EPA is pleased to announce their environmental conference is set for Wednesday, June 20 to Friday, June 22, 2018 at the Twin Arrows Navajo Casino Resort, in Flagstaff, Arizona.

For more information about the conference, please visit www.navajonationepa.org.

This year's environmental conference includes an 8-hour Hazwoper Refreshing Training at a discounted conference price provided by ACME Environmental on Thursday, June 21. Advanced registration is required.

2018 Navajo Nation Sustainability Symposium: Nahasdzáán dóó Yádilil

August 14-17, 2018

High Country Conference Center & Northern Arizona University, Flagstaff, AZ

Hosted by: The Office of Navajo Government Development Commission on Navajo Government Development
 Information: ONGD staff at (929) 871– 7214 or email ekdee@navajo-nsn.gov

EPA Webinar: Food Recovery on Tribal Lands

Date: Thursday, May 10, 2018 at 2:00 – 3:30 PM EDT

[Click on this link](#) to register for the Webinar: (If you have difficulty opening the link, please try it in a different browser)

Haskell Indian Nations University - Food Recovery Program: A Tribal ecoAmbassador Project. At Haskell Indian Nations University, an important part of campus sustainability is reducing food waste, giving back to the environment, and nurturing the land through student projects. During this webinar, Haskell student Jamie Colvin will discuss the University's compost program. Attendees will learn how to establish a compost collection program, collect data, and manage food waste with a 3-bin compost system.

Webinar Presenters include Liz Blackburn, Air and Waste Management Division, EPA Region 7 and Jamie Calvin, Haskell Indian Nations University. For Further Information, Contact: Kathy Rafferty, 703-308-0589.

NTAA Upcoming Calls. The toll-free number is 1-800-309-2350. If you do not need to call toll free, or would like to help conserve NTAA funding, you can call 1-805-309-2350. Both numbers use code 928-523-0526#.

Contact Andy.Bessler@nau.edu if you have any questions about any call!

Registration instructions When you register for the GoToWebinar, please remember to include your Tribe, Region, or Organization in parenthesis after your last name. This allows you to see everyone on the call and prevents us from conducting a roll-call, ultimately saving everyone's time.

<p>Volkswagen Settlement Work Group: Continue to track the ongoing developments and help guide the process</p>	<p>Thursday, May 3, 2pm ET</p>
<p>Indoor Air Quality Work Group: Help implement IAQ priorities and develop webinars</p>	<p>Will take place during NTFAQ</p>

ITEP's [2018 AIAQTP Course Schedule](#)

Course Title	Dates	Location
<i>National Tribal Forum on Air Quality</i>	<i>May 14-18</i>	<i>Duluth, MN</i>
Management of Tribal Air Programs and Grants (lower 48)	June 5-7	Flagstaff, AZ
Building Performance: Improving IAQ in Cold Climates	Open	Online
Residential Building Science Review	Open	Online
Radon Fundamentals	Open	Online
Quality Assurance (QA) Fundamentals	Open	Online
Quality Assurance Project Plans (QAPP)	Open	Online
Emissions Inventory (self-paced, instructor assistance as needed)	Open	Online

Note: This schedule is subject to change. [Click here](#) for up-to-date information, course descriptions, and applications. If you have questions regarding the pre-requisites or your eligibility for a course, please contact Patricia Ellsworth, Air Quality Curriculum Coordinator, at Patricia.Ellsworth@nau.edu or phone 928-523-6721. For more information, please visit [ITEP's website](#).

Climate Change / Energy

Climate Change Adaptation Planning In-Person Training: June 5-7, 2018, Glennallen, Alaska

The Institute for Tribal Environmental Professionals is excited to be collaborating with *Copper River Native Association* on an *Introduction to Climate Change Adaptation Planning* course. This course provides an overview to planning for climate change impacts, highlighting the work of several tribes.

If you are interested in applying for this course, please fill out the online application form at <http://www7.nau.edu/itep/main/tcc/Training/Trainings>

*If you are unable to complete the online form, please contact us for a form to be sent to you which you must sign and return as an attachment (*PDF format preferred*) by email to Colleen.Davis@nau.edu or by fax to ITEP at 928-523-1266 to the attention of *Colleen Davis*. Applications received by Friday, May 04, 2018, will have priority consideration.

U.S. EPA ENERGY STAR Webinars

May 2, 9, 16, 23, and 30, Noon (ET) – Portfolio Manager: Ask the Expert

Most Wednesdays ENERGY STAR holds a live webinar that gives all Portfolio Manager users an opportunity to ask their questions directly to EPA experts in an open forum. [Register](#)

May 8, 1 PM (ET) – Portfolio Manager 201

Continue to learn about EPA's ENERGY STAR Portfolio Manager tool with a deeper dive into more advanced functionalities such as: editing property data; correcting and updating property use details; using the data quality checker; and sharing property data. [Register](#)

May 15, 1 PM (ET) – Portfolio Manager 301

With a good background on the basic functionality of EPA's ENERGY STAR Portfolio Manager tool, learn about some advanced features including: using spreadsheet upload templates to update property data; setting goals and targets to plan energy improvements for properties; creating custom reports; and using the Sustainable Buildings Checklist. [Register](#)

May 16, 12 PM (ET) – Just Add WaterSense to Your Energy Efficiency Efforts

Join this webinar to learn how to incorporate water into your energy management activities by assessing your facility's water use and identifying areas of water waste. Find out what it takes to make your building more water-efficient from simple, low-cost changes to larger-scale improvements and how WaterSense tools can help you start maximizing your savings and building performance. [Register](#)

May 23, 1 PM (ET) – Best practices for deploying electric vehicle (EV) charging stations at commercial buildings

Electric vehicle (EV) charging stations are a standard feature at green, sustainable buildings due to progressive workplace policies and growing demand from employees and tenants. This webinar will provide a high-level overview of the EV charger market and will provide examples of best practices to consider for commercial installations. [Register](#)

U.S. Department of Energy Better Buildings Challenge Webinars

May 1, 3 PM (ET) – Financing 2.0: Navigating 3rd Party Financing for Energy Efficiency and Renewables

The last few years have seen dramatic growth in the variety of third-party financing options available for energy efficiency and renewable energy projects. To help make sense of the options, DOE recently rolled out the Better Buildings Financing Navigator 2.0, an improved version of our online tool that helps organizations find financing for efficiency and renewables projects. On this webinar, we'll highlight the powerful new features of the Navigator. We'll also hear from industry experts on key trends in third-party financing, as well as practical tips and tricks to help you secure funding that works for you. [Register](#)

ITEP's Climate Change Adaptation Training Courses registration is online!

Toxics/Mobile Sources

U.S. EPA Webinars

May 3 at 3 PM (ET) – Informational Webinars on DERA Requests for Proposals.

EPA is announcing the availability of approximately \$40 million in Diesel Emission Reduction Program (DERA) funds to support projects aimed at reducing emissions from the nation's fleet of older diesel engines. Between 20 and 80 awards are anticipated to be made to eligible applicants.

Eligible applicants include regional, state, local, or tribal agencies, or port authorities, with jurisdiction over transportation or air quality. Nonprofit organizations may apply if they provide pollution reduction or educational services to diesel fleet owners or have, as their principal purpose, the promotion of transportation or air quality. Learn more.

May 3, 2018, 3:00-4:30 pm (ET)

Join at www.epawebconferencing.acms.com/dera18b/
Dial-In: (202) 991-0477 Participant Code: 4149804#

Technical Assistance to Brownfields Centers Webinars

May 9, 2 PM – BUILDing on Brownfield Progress: Opportunities from the New Federal “BUILD Act” Brownfields Law

The BUILD Act (Brownfields Utilization, Investment and Local Development) is the first major legislative change to Brownfields since passage of the original statute in 2002. Hear from experts involved in the legislation on the specifics of the changes: increased eligibility for funding, additional liability protections, and changes to grant programs, just to name a few. Accomplished users of Brownfields programs will provide some interpretation of how the changes might impact local development. TAB will provide some thoughts on Brownfield basics and TAB services that can assist both experienced and novice users of these programs.

Join this webinar to hear about how the BUILD Act will improve the national brownfields program and support community brownfields revitalization. [Register](#)

Indoor Air Quality

Asthma Webinar Series: Asthma Research Results

Reserve your webinar seat now at

register.gotowebinar.com/register/206509564211840257

Date: May 10, 2018, Thursday

Time: 10:30 am AKDT, 11:30 am PDT, 12:30 am MDT, 1:30 pm CDT, 2:30 pm EDT

Duration: 1.5 hours

Many tribal communities have high rates of asthma. Asthma is a unique medical condition that can benefit from both medical treatment and environmental mitigation. The “From Home to School: Tribal Indoor Air Quality Study” was designed to determine the impact of environmental mitigation/education efforts on asthma symptoms among a sample of 129 tribal children with asthma. The education focused on targeted cleaning and other asthma trigger removal activities, as well as ventilation that reduce concentrations of asthma triggers. The attention to both home and school environments embodies a more complete profile of total exposure of the tribal children. This webinar will focus on the final results of the research study and the practical implications related to environmental mitigation/education.

Questions: Contact Mansel A. Nelson at mansel.nelson@nau.edu or 928-523-1275

Gordon Research Conference on the Microbiology of the Built Environment

July 15-20, 2018

University of New England, Biddeford, ME, USA

Topics covered include

- How the building microbiome impacts the human microbiome
- Viruses in buildings
- Building microbes, allergies and asthma
- Mold in buildings
- Pathogens in premise plumbing
- Control of microbes in buildings
- New methods for pathogen detection

More [information and registration here](#).

U.S. EPA's All Bugs Good and Bad Webinar Series

All Bugs Good and Bad Webinar will take place this Friday, May 4 at 1:00 pm Central Time. Fleas have you down? A pest of both homes and our pets, populations can quickly get away from us. Running and grabbing a pesticide generally doesn't work unless you understand their biology and life cycle. Join us as Dr. Nancy Hinkle, Professor Veterinary Entomology, University of Georgia, gives a webinar filled with information to help us get flea populations under control BEFORE they escalate. We hope you can attend the webinar live, but if you are unable to make it, a recording will be posted online next week.

Webinar link: <https://auburn.zoom.us/j/209793415>

Note: on May 4, the link to the live webinar opens about 15 minutes before the webinar. If you try to log in earlier, you will get an error message.

For more webinars in this series, see [2018 All Bugs Good and Bad Webinar Series](#).

[Ambient Air Quality/EPA/NTAA/Tribes](#)

The U.S. EPA invites nominations to be considered for appointment to its Mobile Sources Technical Review Subcommittee (MSTRS). Topics such as gliders and VW will likely be discussed on this subcommittee. Vacancies are anticipated to be filled by fall 2018. Nominations must be postmarked or emailed by May 22, 2018. For more information, see the [Federal Register notice for Tuesday, April 17](#), or contact Courtney McCubbin, Designated Federal Officer, U.S. EPA; telephone: (202) 564–2436; email: mccubbin.courtney@epa.gov.

Tribal Capacity and Needs Assessment on Environmental Data Collection and Management

This Needs Assessment is being conducted by the [Tribal Governance Group \(TGG\)](#), which is seeking input from tribal leaders, environmental program staff, and information technology staff that support tribal environmental projects. We would value 15 minutes of your time to complete a brief questionnaire seeking information on your tribes' environmental data management activities and technological capacity. Please distribute this questionnaire to the tribal representative(s) and/or staff person(s) most appropriate to respond; multiple responses per tribe will accepted.

As funding for tribal programs continues to shrink and become more competitive, it is essential that federal agencies are informed with robust, representative input directly from tribes. The TGG has continued to advocate for increased funding support for tribal programs that is also responsive to tribal needs and constraints, and supports tribal goals and priorities.

The needs assessment is easy to complete using either a computer or mobile device. Please click on the link below to access the online form (if the link does not open automatically, copy and paste the link into a web browser to access). The needs assessment will be accepting responses through June 30, 2018.

http://nau.co1.qualtrics.com/jfe/form/SV_b42EtWFq3AU7IEp

For more information, visit: www.tribalexchangenetwork.org or contact Frank Harjo, TGG Chair at fharjo@mcn-nsn.gov

EPA Tools and Resources Webinar Series

Usually held the third Wednesday of every month from 3:00-4:00 PM ET
Who should attend? Representatives of state environment and health agencies, tribes, local governments, communities, and others interested in learning about EPA tools and resources available to help inform decision-making.

[Access past webinars and learn more here.](#)

No-Cost Technical Assistance from DOE

The DOE Office of Indian Energy provides federally recognized Indian tribes, including Alaska Native villages, tribal energy resource development organizations, and other organized tribal groups and communities, with technical assistance to advance tribal energy projects at no cost. Technical experts from DOE and its national laboratories, along with other partnering organizations, provide support to assist Indian tribes and Alaska Native villages with energy planning, housing and building energy efficiency, project development, policy and regulation, resilience, and village power.

For more information, visit the on-request [technical assistance description](#).

Application deadline is May 25, 2018

Indoor Air Quality

Information on State IAQ Laws and Policies—Environmental Law Institute

Have you ever wondered what your state's IAQ laws or policies are? The Environmental Law Institute (ELI) has a wealth of information on how states are addressing long-standing and emerging indoor air quality (IAQ) issues. ELI's materials on IAQ are all available *free* at www.eli.org/buildings, ELI's portal for its Indoor Environments and Green Buildings Program. From the portal, you can browse among general topics or choose a type of publication

Available On-Demand: Linking IAQ, Energy Efficiency, and Preventive Maintenance

The webinar “Making the Connection: Linking IAQ, Energy Efficiency, and Preventive Maintenance Together for Healthy Schools” can now be [viewed online here](#).

This webinar will demonstrate how to—

- Explain the critical connection between IAQ, energy efficiency and preventive maintenance, as well as the importance of properly integrating them for optimal occupant health and building performance during a renovation project.
- Use resources to help with energy efficiency and preventive maintenance efforts, including the Energy Savings Plus Health guide and the accompanying Interactive Air Quality Planner for Schools that helps you create a custom verification checklist for both your building upgrades and concurrent IAQ assessment protocols for each step of the upgrade process.
- Use a case study from a school district on getting started using these resources to create healthy indoor learning environments.
- Start or improve a preventive maintenance program to include IAQ and energy efficiency components as part of a comprehensive building management approach.

You can also download the [“Energy Savings Plus Health: Indoor air Quality Guidelines for School Building Upgrades”](#).

Be sure to sign up for [EPA’s Healthy Indoor Air newsletter](#).
