National Tribal Caucus Annual Meeting

The National Tribal Caucus (NTC), an EPA advisory group comprised of 19 tribal environmental leaders, convened its spring meeting in Phoenix, AZ. The NTC met on April 25 and was joined by AIEO, R5 and R8 (Lead Region) staff on April 26 – 27. The joint EPA- NTC discussions included many timely, relevant issues, including the GAP Guidance, tribal program authorization applications, and consultation. The group elected members to serve as the 2018-19 Executive Committee: Chairwoman Paula Britton (Cahto Tribe, R9); Vice Chairman Gerald Wagner (Blackfeet Tribe, R8); and Secretary Scott Clow (Ute Mountain Ute Tribe, R8). The NTC meeting concluded with a site visit to the Gila River Indian Community’s Pee Posh Wetlands Conservation Area. The conservation area supports cultural uses and environmental outreach and educational objectives. The area also supports an array of wildlife, including nesting bald eagles, beavers, bobcats, and over 50 migrating and local bird species. [Learn more about the NTC here.](#)

EPA Consultation Process for Tribes: Proposal to Require Full Application Package with Initial Application for Assistance Agreements in Grants.gov

EPA Lead Organization: OARM - Office of Administration and Resources Management.

Start Date: 04/30/2018

End Date: 06/22/2018

Official notification of consultation will be sent to tribal governments potentially affected by this action.

To obtain additional information about this action and other EPA consultations on going or planned. [Click here to open "published list of consultations."](#) The EPA contact for this list is [Dona M Harris](#) American Indian Environmental Office/Office of International and Tribal Affairs.

Tribal Grants Education and Technical Assistance Webinar Series Second Wednesday of Every Month at 1pm ET [For more information, click here!](#)

The Health Resources and Services Administration (HRSA) is hosting a FREE Grants Education and Technical Assistance Webinar Series for Tribes, Tribal Organizations, Indian Health, Tribal and Urban Indian Health Programs. Learn about the federal grant application process, how to write better grant proposals and evaluation plans for your projects, strategies for successful grant management, and more. Participants will also have the opportunity to connect with HRSA subject matter experts, grant reviewers, as well as peers to discuss best practices and barriers to successful grants application and management.

Webinars will be held the second Wednesday of every month from 1:00pm to 2:30pm ET - view the list of topics below:

- May 9: Writing a Competitive Grant Application
- June 13: Applying for a HRSA Grant
- July 11: Writing a Successful Evaluation Plan for Your Grant Application
- August 8: Preparing a Budget for your Grant Proposal

- September 12: Effective Grants Management/Administration & Reporting
- October 10: Successful HRSA Tribal Grantees

You must register to access the recording. Register here:

https://hrsa.connectsolutions.com/federal_grant_application_recording/event/registration.html. For more information, please contact Nancy Rios at nrios@hrsa.gov.

EPA Workshop & Webinar: Deliberating Performance Targets for Air Quality Sensors

Date and Time: Monday, 06/25/2018, 9:00AM EDT to Tuesday, 06/26/2018, 5:00PM EDT

[Click here for more information](#) from EPA's website.

2018 Tribal Lands and Environment Forum Scheduled for August 13-16, 2018, in Spokane, Washington. "Early Bird" Registration Ends June 29; Online Registration Closes August 3.

The 8th annual Tribal Lands and Environment Forum (TLEF) will be taking place at the Spokane Convention Center in Spokane, Washington, August 13-16, 2018. This year's forum will feature special trainings, field trips, and breakout sessions focused on the conference theme: A National Conversation on Tribal Land and Water Resources. Topics highlighted at the forum include solid/hazardous waste management, brownfields, UST/LUSTs, Superfund sites, and emergency response. Tribal water program topics – water quality, drinking water, and habitat restoration (including wetlands, streams and fisheries) will also be included with breakout sessions, trainings and field trips. Please visit the TLEF conference website at <https://www7.nau.edu/itep/main/Conferences/conf/tlef>.

Navajo Nation EPA is pleased to announce their environmental conference is set for Wednesday, June 20 to Friday, June 22, 2018 at the Twin Arrows Navajo Casino Resort, in Flagstaff, Arizona.

For more information about the conference, please visit www.navajonationepa.org.

This year's environmental conference includes an 8-hour Hazwoper Refreshing Training at a discounted conference price provided by ACME Environmental on Thursday, June 21. Advanced registration is required.

The NASA Health and Air Quality Applied Sciences Team (HAQAST) is holding their annual meeting in Madison, WI on July 16-17:

<https://haqast.org/next-meeting/>

One of the goals of HAQAST is to connect air quality planners with NASA data. The HAQAST researchers have engaged in several projects to demonstrate how data derived from satellite platforms could be used by state air agencies.

Satellite data are becoming critical technical support components for demonstrating the air quality impacts of international transport, exceptional events, and interstate transport... issues that have been at the forefront of our recent discussions. I will be leading a panel at the meeting on how NASA-sponsored research can better serve air pollution planning agencies. Having state perspectives involved in this discussion would be very valuable.

Registration is open now and NASA is accepting applications for travel support on an as needed, first-come basis.

2018 Navajo Nation Sustainability Symposium: Nahasdzáán dóó Yádilil

August 14-17, 2018

High Country Conference Center & Northern Arizona University, Flagstaff, AZ

Hosted by: The Office of Navajo Government Development Commission on Navajo Government Development

Information: ONGD staff at (929) 871– 7214 or email ekdee@navajo-nsn.gov

EPA Webinar: Food Recovery on Tribal Lands

Date: Thursday, May 10, 2018 at 2:00 – 3:30 PM EDT

[Click on this link](#) to register for the Webinar: (If you have difficulty opening the link, please try it in a different browser)

Haskell Indian Nations University - Food Recovery Program: A Tribal ecoAmbassador Project. At Haskell Indian Nations University, an important part of campus sustainability is reducing food waste, giving back to the environment, and nurturing the land through student projects. During this webinar, Haskell student Jamie Colvin will discuss the University's compost program. Attendees will learn how to establish a compost collection program, collect data, and manage food waste with a 3-bin compost system.

Webinar Presenters include Liz Blackburn, Air and Waste Management Division, EPA Region 7 and Jamie Calvin, Haskell Indian Nations University. For Further Information, Contact: Kathy Rafferty, 703-308-0589.

NTAA Upcoming Calls. The toll-free number is 1-800-309-2350. If you do not need to call toll free, or would like to help conserve NTAA funding, you can call 1-805-309-2350. Both numbers use code 928-523-0526#.

Contact Andy.Bessler@nau.edu if you have any questions about any call!

Registration instructions When you register for the GoToWebinar, please remember to include your Tribe, Region, or Organization in parenthesis after your last name. This allows you to see everyone on the call and prevents us from conducting a roll-call, ultimately saving everyone's time.

Indoor Air Quality Work Group: Help implement IAQ priorities and develop webinars	Will take place during NTFAQ
EPA Policy Update Call: Receive updates from EPA	Thursday, May 31, 2pm ET
Volkswagen Settlement Work Group: Continue to track the ongoing developments and help guide the process	Thursday, June 7, 2pm ET

The Institute for Tribal Environmental Professional's (ITEP's) [Tribes and Climate Change Calendar](#) includes conferences, trainings, webinars and other events related to tribes and climate change.

ITEP's [2018 AIAQTP Course Schedule](#)

Course Title	Dates	Location
<i>National Tribal Forum on Air Quality</i>	<i>May 14-18</i>	<i>Duluth, MN</i>
Management of Tribal Air Programs and Grants (lower 48)	June 5-7	Flagstaff, AZ
Building Performance: Improving IAQ in Cold Climates	Open	Online
Residential Building Science Review	Open	Online
Radon Fundamentals	Open	Online
Quality Assurance (QA) Fundamentals	Open	Online

Quality Assurance Project Plans (QAPP)	Open	Online
Emissions Inventory (self-paced, instructor assistance as needed)	Open	Online

Note: This schedule is subject to change. [Click here](#) for up-to-date information, course descriptions, and applications. If you have questions regarding the pre-requisites or your eligibility for a course, please contact Patricia Ellsworth, Air Quality Curriculum Coordinator, at Patricia.Ellsworth@nau.edu or phone 928-523-6721. For more information, please visit [ITEP's website](#).

Webinar May 16 - BroadbandUSA Technical Assistance to Rural Communities

[According to the FCC's 2018 data, 25 million Americans and 31% of rural Americans do not have broadband](#) available to them. The BroadbandUSA Technical Assistance Team has devoted time to working with providers and local government officials to improving broadband infrastructure in rural communities.

For example, the team assisted a community in rural Alaska by providing solution- and technology-neutral advice on many issues, including market assessment, revenue modeling, construction schedules, and specific steps that the local government can implement to assist private providers speed up deployment and expansion of broadband infrastructure. A town in Virginia requested assistance during the implementation process of a new land mobile radio (LMR) public safety system. In Maine, the team provided feedback to a remote community during its Request for Information (RFI) development to attract potential broadband providers. On a regular basis, the team provides assistance to support infrastructure and digital inclusion planning, funding, and implementation efforts.

May 16, 2018 [BroadbandUSA Practical Broadband Conversations Webinar Series](#): Infrastructure Week Special: Successful Models and Best Practices for Rural Broadband Deployment. The BroadbandUSA Technical Assistance Team is looking forward to serving more rural communities through building partnerships. Contact them at broadbandusa@ntia.doc.gov.

Climate Change / Energy

Climate Change Adaptation Planning In-Person Training: June 5-7, 2018, Glennallen, Alaska

The Institute for Tribal Environmental Professionals is excited to be collaborating with *Copper River Native Association* on an *Introduction to Climate Change*

Adaptation Planning course. This course provides an overview to planning for climate change impacts, highlighting the work of several tribes.

If you are interested in applying for this course, please fill out the online application form at <http://www7.nau.edu/itep/main/tcc/Training/Trainings>

*If you are unable to complete the online form, please contact us for a form to be sent to you which you must sign and return as an attachment (*PDF format preferred*) by email to Colleen.Davis@nau.edu or by fax to ITEP at 928-523-1266 to the attention of *Colleen Davis*. Applications received by Friday, May 04, 2018, will have priority consideration.

U.S. EPA ENERGY STAR Webinars

May 2, 9, 16, 23, and 30, Noon (ET) – Portfolio Manager: Ask the Expert

Most Wednesdays ENERGY STAR holds a live webinar that gives all Portfolio Manager users an opportunity to ask their questions directly to EPA experts in an open forum. [Register](#)

May 15, 1 PM (ET) – Portfolio Manager 301

With a good background on the basic functionality of EPA's ENERGY STAR Portfolio Manager tool, learn about some advanced features including: using spreadsheet upload templates to update property data; setting goals and targets to plan energy improvements for properties; creating custom reports; and using the Sustainable Buildings Checklist. [Register](#)

May 16, 12 PM (ET) – Just Add WaterSense to Your Energy Efficiency Efforts

Join this webinar to learn how to incorporate water into your energy management activities by assessing your facility's water use and identifying areas of water waste. Find out what it takes to make your building more water-efficient from simple, low-cost changes to larger-scale improvements and how WaterSense tools can help you start maximizing your savings and building performance. [Register](#)

May 23, 1 PM (ET) – Best practices for deploying electric vehicle (EV) charging stations at commercial buildings

Electric vehicle (EV) charging stations are a standard feature at green, sustainable buildings due to progressive workplace policies and growing demand from employees and tenants. This webinar will provide a high-level overview of the EV charger market and will provide examples of best practices to consider for commercial installations. [Register](#)

ITEP's Climate Change Adaptation Training Courses registration is online!
[Learn more about the courses and register here.](#)

Toxics/Mobile Sources

Technical Assistance to Brownfields Centers Webinars

May 9, 2 PM – BUILDing on Brownfield Progress: Opportunities from the New Federal “BUILD Act” Brownfields Law

The BUILD Act (Brownfields Utilization, Investment and Local Development) is the first major legislative change to Brownfields since passage of the original statute in 2002. Hear from experts involved in the legislation on the specifics of the changes: increased eligibility for funding, additional liability protections, and changes to grant programs, just to name a few. Accomplished users of Brownfields programs will provide some interpretation of how the changes might impact local development. TAB will provide some thoughts on Brownfield basics and TAB services that can assist both experienced and novice users of these programs.

Join this webinar to hear about how the BUILD Act will improve the national brownfields program and support community brownfields revitalization. [Register](#)

Indoor Air Quality

Asthma Webinar Series: Asthma Research Results

Reserve your webinar seat now at

register.gotowebinar.com/register/206509564211840257

Date: May 10, 2018, Thursday

Time: 10:30 am AKDT, 11:30 am PDT, 12:30 am MDT, 1:30 pm CDT, and 2:30 pm EDT. Duration: 1.5 hours

Many tribal communities have high rates of asthma. Asthma is a unique medical condition that can benefit from both medical treatment and environmental mitigation. The “From Home to School: Tribal Indoor Air Quality Study” was designed to determine the impact of environmental mitigation/education efforts on asthma symptoms among a sample of 129 tribal children with asthma. The education focused on targeted cleaning and other asthma trigger removal activities, as well as ventilation that reduce concentrations of asthma triggers. The attention to both home and school environments embodies a more complete profile of total exposure of the tribal children. This webinar will focus on the final results of the research study and the practical implications related to environmental

mitigation/education. Questions: Contact Mansel A. Nelson at mansel.nelson@nau.edu or 928-523-1275

Gordon Research Conference on the Microbiology of the Built Environment

July 15-20, 2018

University of New England, Biddeford, ME, USA

Topics covered include

- How the building microbiome impacts the human microbiome
- Viruses in buildings
- Building microbes, allergies and asthma
- Mold in buildings
- Pathogens in premise plumbing
- Control of microbes in buildings
- New methods for pathogen detection

More [information and registration here](#).

RESOURCES

Ambient Air Quality/EPA/NTAA/Tribes

EPA Releases Mobile Version of EPA's EJSCREEN

EPA recently launched its new mobile device optimized version of EJSCREEN, the Agency's nationally acclaimed environmental justice screening and mapping tool. This mobile version makes accessing EJSCREEN easier than ever. This new mobile version contains the same key functions and features as the full version of the EJSCREEN tool in a more compact layout. This includes the ability to select locations, access reports, and to map environmental, demographic and EJ indicators. EJSCREEN was built as an online computer tool for EPA staff to look at environmental and demographic factors related to environmental justice as we develop programs and policies that impact low-income, minority, and other overburdened communities. However, it was built for use on standard desktop and laptop computers. The Agency found that this desktop format is not always accessible to many stakeholders working in environmental justice communities. After we released EJSCREEN to the public, we received feedback that the tool could be more mobile device friendly. In addition, website analytical data showed

that more than 50% of users accessed the EJSCREEN tool from a mobile device. As a result, we developed this mobile version to be responsive to our user's needs. In addition, EPA will continue to make enhancing EJSCREEN based on feedback a top priority.

- For more information on the mobile version of EJSCREEN, please read the blog: <https://blog.epa.gov/blog/2018/04/ejscreen-coming-to-a-phone-near-you/>.
- For more information on EJSCREEN: <https://www.epa.gov/ejscreen>.

Tribal Capacity and Needs Assessment on Environmental Data Collection and Management

This Needs Assessment is being conducted by the [Tribal Governance Group \(TGG\)](#), which is seeking input from tribal leaders, environmental program staff, and information technology staff that support tribal environmental projects. We would value 15 minutes of your time to complete a brief questionnaire seeking information on your tribes' environmental data management activities and technological capacity. Please distribute this questionnaire to the tribal representative(s) and/or staff person(s) most appropriate to respond; multiple responses per tribe will accepted.

As funding for tribal programs continues to shrink and become more competitive, it is essential that federal agencies are informed with robust, representative input directly from tribes. The TGG has continued to advocate for increased funding support for tribal programs that is also responsive to tribal needs and constraints, and supports tribal goals and priorities.

The needs assessment is easy to complete using either a computer or mobile device. Please click on the link below to access the online form (if the link does not open automatically, copy and paste the link into a web browser to access). The needs assessment will be accepting responses through June 30, 2018.

For more information, visit: www.tribalexchangenetwork.org or contact Frank Harjo, TGG Chair at fharjo@mcn-nsn.gov

Salish Kootenai College would like everyone to know of their new programs available such as Health Promotion Practices Associate Degree, Grant Projects Management Associate of Arts Degree, Grant Projects Assistant Certificate, and

Hazardous Material Management/Environmental Technician Program. *For more information [please click here.](#)*

EPA Tools and Resources Webinar Series

Usually held the third Wednesday of every month from 3:00-4:00 PM ET
Who should attend? Representatives of state environment and health agencies, tribes, local governments, communities, and others interested in learning about EPA tools and resources available to help inform decision-making.

[Access past webinars and learn more here.](#)

No-Cost Technical Assistance from DOE

The DOE Office of Indian Energy provides federally recognized Indian tribes, including Alaska Native villages, tribal energy resource development organizations, and other organized tribal groups and communities, with technical assistance to advance tribal energy projects at no cost. Technical experts from DOE and its national laboratories, along with other partnering organizations, provide support to assist Indian tribes and Alaska Native villages with energy planning, housing and building energy efficiency, project development, policy and regulation, resilience, and village power.

For more information, visit the on-request [technical assistance description](#).

Application deadline is May 25, 2018

Indoor Air Quality

Information on State IAQ Laws and Policies—Environmental Law Institute

Have you ever wondered what your state’s IAQ laws or policies are? The Environmental Law Institute (ELI) has a wealth of information on how states are addressing long-standing and emerging indoor air quality (IAQ) issues. ELI’s materials on IAQ are all available *free* at www.eli.org/buildings, ELI’s portal for its Indoor Environments and Green Buildings Program. From the portal, you can browse among general topics or choose a type of publication

Available On-Demand: Linking IAQ, Energy Efficiency, and Preventive Maintenance

The webinar “Making the Connection: Linking IAQ, Energy Efficiency, and Preventive Maintenance Together for Healthy Schools” can now be [viewed online here](#).

This webinar will demonstrate how to—

- Explain the critical connection between IAQ, energy efficiency and preventive maintenance, as well as the importance of properly integrating them for optimal occupant health and building performance during a renovation project.
- Use resources to help with energy efficiency and preventive maintenance efforts, including the Energy Savings Plus Health guide and the accompanying Interactive Air Quality Planner for Schools that helps you create a custom verification checklist for both your building upgrades and concurrent IAQ assessment protocols for each step of the upgrade process.
- Use a case study from a school district on getting started using these resources to create healthy indoor learning environments.
- Start or improve a preventive maintenance program to include IAQ and energy efficiency components as part of a comprehensive building management approach.

You can also download the [“Energy Savings Plus Health: Indoor air Quality Guidelines for School Building Upgrades”](#).

Be sure to sign up for [EPA’s Healthy Indoor Air newsletter](#).

FUNDING OPPORTUNITIES

Now Hiring!

ITEP is hiring!

The Institute for Tribal Environmental Professionals at Northern Arizona University (ITEP) is hiring an Administrative Assistant. This position provides administrative support for activities associated with ITEP Budget Office and the VW Settlement Technical Assistance Program (VWS-TAP). [Click here](#) and then click on the “search jobs now” button to apply.

The Makah Tribe is hiring a Water Quality Specialist

Closing date: May 18, 2018

[More information can be found here.](#)

The Makah Tribe is hiring an Environmental Division Manager

Closing date: May 16, 2018

[More information can be found here.](#)

Fort Independence Indian Reservation is currently accepting applications for a Water Quality Specialist

Closing date: May 24, 2018

Contact Mike Jimenez at 760-878-5160 for more information

The U.S. Institute for Environmental Conflict Resolution (U.S. Institute) is seeking a Senior Program Manager to lead it’s Native American and Alaska Native (NAAN) program area. The preferred location for this position is Tucson, Arizona, although highly qualified remote candidates will be considered.

The U.S. Institute is part of the Morris K. Udall and Stewart L. Udall Foundation, an independent executive branch agency that promotes leadership, education, collaboration, and conflict resolution in the areas of environment, public lands, and natural resources.

This is a full-time, permanent, federal position in an excepted service appointment. Compensation and responsibilities for this position are comparable to that of a GS-14 in a competitive service appointment. Extensive travel may be required. **This position will remain open until May 21st, 2018. A position description with required qualifications is linked below.**

<https://www.udall.gov/News/NewsAndEvents.aspx?Item=7153>

If interested, submit a cover letter, resume, writing sample, and three references to:

Brian Manwaring, Director
U.S. Institute for Environmental Conflict Resolution
