TOP STORIES

The NTAA has published a [Memo on EPA's Final ACE Rule](#)

NTAA's Policy Advisory Committee member Pilar Thomas drafted a memo to summarize the recent final rulemaking actions taken by the EPA related to greenhouse gas emissions: the repeal of the Clean Power Plan (CPP); the promulgation of a final rule for the Affordable Clean Energy Plan (ACE); and amendments to the Section 111(d) regulations. This memo will help Tribes better understand the implications and next steps after EPA issued the ACE on July 8,

2019. The memo will be posted [here](#) on NTAA's Policy Response Kit page for the ACE rule where you can also find additional information from NTAA including outreach letters that NTAA sent to several states regarding consultation with Tribes.

UPCOMING CALLS/EVENTS/NOTICES

Ambient Air Quality/EPA/NTAA/Tribes

EPA’s proposed rule “Reclassification of Major Sources as Area Sources Under Section 112 of the Clean Air Act” was published in the Federal Register (FR) on Friday, July 26, 2019. See 84 FR 36304. The FR notice is now [available here](#). The 60-day public comment period is now open. Comments must be received on or before September 24, 2019.

EPA will hold one public hearing in response to this proposed action on August 15, 2019, in Washington, DC. Information about the hearing, including location and time, along with instructions on how to register to speak at the hearing was published in the Federal Register on Wednesday, July 31. See 84 FR 37193. The FR notice of the public hearing is now [available here](#).

To register to speak at the hearing, please use the online registration form available [here](#) or contact Nancy Perry at (919) 541-5628 or at perry.nancy@epa.gov. The last day to pre-register to speak at the hearing will be August 13, 2019.

Tribal Grants Education and Technical Assistance Webinar Series Second Wednesday of Every Month at 1pm ET

[For more information, click here!](#)

Registration is open for the 2019 Tribal Lands & Environment Forum!

August 19-22, 2019 in Palm Springs, California

Visit the link below to register, submit session proposals, and find out information about travel and lodging options. We are all very much looking forward to seeing you at this year's TLEF! [More information here!](#)

NTAA Upcoming Calls. The toll-free number is 1-800-309-2350. If you do not need to call toll free, or would like to help conserve NTAA funding, you can call 1-805-309-2350. Both numbers use code 928-523-0526#.

Contact Andy.Bessler@nau.edu if you have any questions about any call!

Registration instructions When you register for the GoToWebinar, please remember to include your Tribe, Region, or Organization in parenthesis after your last name. This allows you to see everyone on the call and prevents us from conducting a roll-call, ultimately saving everyone's time.

Mobile Sources Work Group: Formerly the VW Work Group, this Work Group will address all mobile source pollution issues.	Thursday, August 1, 2pm ET
Wood Smoke Work Group: A 3-part webinar series will replace the regular work group calls for the next few months. See below under "Indoor Air Quality" for more information.	Wednesday, August 7, 3pm ET
Indoor Air Quality Work Group: Join this work group to help support IAQ work throughout Indian Country.	Thursday, August 15, 2pm ET
EPA Policy Call: Call in to hear updates from EPA on policies, actions, and tools relevant to Indian Country and Air Quality.	Thursday, August 29, 2pm ET

The Institute for Tribal Environmental Professional's (ITEP's) [Tribes and Climate Change Calendar](#) includes conferences, trainings, webinars and other events related to tribes and climate change.

If you have questions regarding the pre-requisites or your eligibility for a course, please contact Patricia Ellsworth, Air Quality Curriculum Coordinator, at Patricia.Ellsworth@nau.edu or phone 928-523-6721. For more information, please visit [ITEP's website](#).

Climate Change / Energy

July 31, Energy Considerations When Designing and Constructing New Tribal Buildings

The most cost-effective time to reduce a building's energy consumption is during the design phase. At this stage, energy-saving features can be integrated into the design in ways that are much more economical than a post construction retrofit/remodel. This webinar will discuss many opportunities to reduce the thermal and electrical energy cost of operating a building, from passive solar

design and energy efficient technologies to building materials and various types of certifications and building codes. Case studies will highlight successes and lessons learned from tribes that have recently built new commercial and residential buildings.

[Register](#)

USET Climate Resilience Summit August 27-29, Verona, NY

USET will be holding its Climate Resilience Summit August 27-29 at the Turning Stone Resort Casino in Verona, NY, on the Oneida Indian Nation. For registration please [follow this link](#). This summit is meant to bring Tribal experts and partners together to share knowledge and best practices in building climate change resilience. Presenters and facilitators will include:

- * Tribal Nations with climate adaptation plans
- * Local practitioners in resilience building
- * Partners from the Northeast & Southeast Climate Adaptation Science Centers

September 24–26: 2019 National Tribal Energy Summit (NTES)

Tribal Energy: Powering Self-Determination

The Office of Indian Energy, in coordination with the National Conference of State Legislatures, will host the 2019 NTES, Tribal Energy: Powering Self-Determination, September 24-26 at the Westin Washington City Center in Washington, D.C.

Educate yourselves and others, expand your circles, and meet with high-level Administration officials and Members of Congress. Tribal leaders—together with the Administration, representatives from federal agencies, state governments, private industry, utilities, and academia—will build networks, exchange ideas, and explore cross-cutting and cost-effective solutions to national energy interests.

Explore taking tribal energy to the next level through:

- Learning modules centered around the key drivers for tribal energy development
- Tribal leader roundtable discussions to address energy policy
- A Women in Energy Leadership Breakfast focusing on tribal perspectives
- Takeaways and resources for participating communities, including utilizing your Tribal Energy Atlas

Unlock the power with DOE and its partner organizations to position your community at the forefront of timely tribal energy conversations. The key to building capacity is first understanding how DOE's Office of Indian Energy can support—or build upon—each tribe's self-determined energy development goals.

Registration information coming soon. Stay tuned!

November 18–22: Register for 2019 Office of Indian Energy Program Review

Register now for the 2019 Office of Indian Energy Program Review to be held November 18–22 at the Sheraton Denver West Hotel in Lakewood, Colorado. This annual event is a tremendous opportunity for Indian tribes to meet, learn from other Indian tribes that are pursuing energy self-sufficiency, and share in each other's successes. The 2019 Program Review will feature project status updates from tribes across the nation who are leveraging Office of Indian Energy grant funding to deploy energy technologies or initiate the first steps to energy development. Due to widespread interest in energy development, the Review is also open to all of Indian Country. There is no registration fee, but advanced registration is required to ensure seating and availability of food. [Register now.](#)

ITEP's Climate Change Adaptation Training Courses registration is online!

[Learn more about the courses and register here.](#)

Toxics/Mobile Sources

EPA's Office of Chemical Safety and Pollution Prevention is conducting tribal outreach on TSCA Chemical Data Reporting Revisions and Small Manufacturer Definition Update for Reporting and Recordkeeping Requirements under TSCA Section 8(a) to provide background information on the proposed rule and to obtain feedback. Attached is a background document to provide you further information on the rule and proposed actions. Two identical outreach sessions will be conducted and tribal comments will be accepted through Friday, August 30th.

Please join us to learn more (note, please log onto adobe connect and the conference line):

- **Session 1: Tuesday, July 30th at 1:00pm-3:00pm EDT**
Adobe connect: <https://epawebconferencing.acms.com/tribaloutreachcdr/>
Conference Line: 866-299-3188; Code: 202-566-0603
- **Session 2: Thursday, August 1st at 1:00pm-3:00pm EDT**
Adobe connect: <https://epawebconferencing.acms.com/tribaloutreachcdr/>
Conference Line: 866-299-3188; Code: 202-566-0603

Summary

EPA is proposing to amend the Toxic Substances Control Act (TSCA) section 8(a) Chemical Data Reporting (CDR) requirements and the TSCA section 8(a) size standards for small manufacturers. The current CDR rule requires manufacturers (including importers) of certain chemical substances listed on the TSCA Chemical Substance Inventory (TSCA Inventory) to report data on chemical manufacturing,

processing, and use every 4 years. EPA is proposing several changes to the CDR rule to make regulatory updates to align with new statutory requirements of TSCA, improve the CDR data collected as necessary to support the implementation of TSCA, and potentially reduce burden for certain CDR reporters. RESOURCES

Ambient Air Quality/EPA/NTAA/Tribes

EPA Technical Assistance to Brownfields Communities Program

EPA's Technical Assistance to Brownfields (TAB) Communities Program helps communities, states, tribes and others understand risks associated with contaminated or potentially contaminated properties, called brownfields, and learn how to assess, safely clean up and sustainably reuse them. EPA funds three organizations—Kansas State University, the New Jersey Institute of Technology and the Center for Creative Land Recycling—to serve as independent sources of technical assistance. Each of these TABs has an extensive network of partners, contractors and other contacts that provides services across the country. They help communities tackle a variety of challenges related to identifying, assessing, cleaning up and redeveloping brownfields. The technical assistance comes at no cost to communities. For more information, visit the [technical assistance description](#).

To view and/or receive ITEP's American Indian Air Quality Training Program newsletter, [Native Voices](#), [click here](#)!

Climate Change/Energy

On-Request Technical Assistance from DOE Office of Indian Energy

The DOE Office of Indian Energy provides federally recognized Indian tribes, including Alaska Native villages, tribal energy resource development organizations, and other organized tribal groups and communities, with technical assistance to advance tribal energy projects at no cost. Technical experts from DOE and its national laboratories, along with other partnering organizations, provide support to assist Indian tribes and Alaska Native villages with energy

planning, housing and building energy efficiency, project development, policy and regulation, resilience, and village power. For more information, visit the on-request [technical assistance description](#).

FUNDING OPPORTUNITIES

Now Hiring!

The Samish Indian Nation is hiring a Natural Resources Climate Adaptation Specialist

Deadline to apply: July 31, 2019

The Climate Adaptation Specialist provides general research assistance, program creation and implementation for the Samish Indian Nation Climate Adaptation Working Group. The Climate Adaptation Specialist will report to the Natural Resources Director and will work closely with project partners on Climate Adaptation issues as directed. The Department is tasked with preserving, enhancing, and restoring Natural Resources relevant to the Samish Tribe. Works closely with Planning Director to incorporate climate resiliency planning into the Comprehensive plan. [More information here](#).

Sac and Fox Nation of Missouri in Kansas and Nebraska is hiring an Air Quality Coordinator

Sac and Fox Nation of Missouri in Kansas & Nebraska is seeking a full time Air Quality Coordinator. The coordinator completes air monitoring by operating a particulate monitor, mercury monitor, meteorological station and a passive ammonia monitor. The position also requires public outreach by creating informative brochures, and speaking at public and tribal specific events. The coordinator is responsible for program record keeping, data storage and analysis,

program reporting and equipment maintenance. Position works Mon-Fri and includes benefits: vacation, sick, holidays, health and dental insurance.

The applicant must have computer experience. A bachelor's degree in Environmental Science or related field and direct experience is preferred. Must possess a valid driver's license. Native American preference does apply. Pay range is \$15 to \$17 per hour depending on qualifications. If selected, applicant will be subject to a drug screen prior to start of employment. To apply submit a cover letter, resume and application to Sac and Fox Nation of Missouri Human Resources Department at 305 North Main St., Reserve, KS 66434 Phone #785-742-7471 Ext 2500 or email to jsimmons@sacandfoxcasino.com. Cover letter, completed application and resume must be postmarked or sent no later than 08/01/2019 at 2PM.

City of Flagstaff, AZ, is hiring an Indigenous Youth STEM Academy Coordinator

Deadline to apply: August 2, 2019

Job Overview: IYSA was created in 2017 with the goal of providing indigenous youth with the opportunity to learn about STEM related fields in conjunction with traditional culture, community, and environmental stewardship. Through the program, students participate in STEM related learning sessions led by Indigenous professionals. IYSA sessions are split into two halves, an in-class session and a field trip to an open space property. The IYSA Coordinator is a part-time staff position spanning from August 2019 until June 2020. The coordinator will commit 40 hours per IYSA session, at a rate of \$15.00/ hour, equating to \$600.00 per session. [More information can be found here.](#)

The Arizona Trail Association is hiring a Youth Outreach and Education Coordinator for Northern Arizona

Open until filled, ideally during the month of August.

[More information here.](#)

***Ambient Air Quality/EPA/NTAA/Tribes* Indian Housing Block Grant Competitive Grants Program**

On May 7, 2019, the [U.S. Department of Housing and Urban Development \(HUD\)](#) published the [Notice of Funding Availability \(NOFA\)](#) for the [Indian Housing Block Grant \(IHBG\) Competitive Grants Program](#). This NOFA announces the availability of \$198 million for competitive grants to Indian tribes and tribally designated housing entities eligible to receive IHBG funding under the Native

American Housing Assistance and Self-Determination Act of 1996, as amended (25 U.S.C. 4101 et seq.).

Your AONAP office will be in touch soon with details such as registration, location and times. ONAP staff will provide the training and cover NOFA requirements, including threshold requirements, technical rating factors and post-award reporting requirements. There will be opportunities to ask questions. Applications are due August 8, 2019. These funds can be used for a range of housing work, which could include rehabilitation work that improves indoor air quality. [Apply here](#). Please locate and read the Dear Tribal Leader letter [here](#).

DOI FWS State Wildlife Grant Program – \$1 million

Applications Due: August 31, 2020

Eligible Entities: state governments

The State Wildlife Grant (SWG) Program provides States, the District of Columbia, Commonwealths, and Territories (States) Federal grant funds for the development and implementation of programs for the benefit of wildlife and their habitats, including species that are not hunted or fished. Eligible activities include both conservation planning and implementation activities. For more information, visit the funding opportunity [description](#).

Climate Change/Energy

Toxics/Mobile Sources

EPA OLEM Hazardous Waste Management Grant Program for Tribes—\$290,000

Applications Due: August 1, 2019

Eligible Entities: Indian tribal governments

This notice announces the availability of funds and solicits applications from federally-recognized tribes or intertribal consortia for the development and implementation of hazardous waste programs and for building capacity to address hazardous waste management in Indian country. In accordance with the EPA Indian Policy of 1984, EPA recognizes tribal governments as the primary parties for managing programs for reservations. To maximize the benefits to tribes from the limited funding to support the Hazardous Waste Management Grant Program for Tribes, EPA has reassessed the criteria used to evaluate Applications submitted for funding through this grant program beginning in FY 2015. The goal of this effort is to provide technical assistance to a greater number of tribes for activities that involve hazardous waste management on tribal lands. For more information, visit the funding opportunity [description](#).

US Department of Transportation: America's Marine Highway Projects

Deadline to apply: August 15

The purpose of the appropriation is to make grants available to previously designated Marine Highway Projects that support the development and expansion of documented vessels, or port and landside infrastructure.

Total FY19 Funding: \$7 Million

Eligible Entities include the following:

- Original Project Applicant of a project that the Secretary has previously designated as a Marine Highway Project or;
- A substitute (which can be either a public entity or a private-sector entity who has been referred to the Program Office by the original Project Applicant, with a written explanation, as part of the application);
- State governments (including State departments of transportation), metropolitan planning organizations, port authorities, and tribal governments, or private sector operators of marine highway services within designated Marine Highway Projects.

To apply, read the [Notice of Funding Opportunity](#) (deadline August 15).

Selection Criteria: Includes financial viability; demonstration that the funds received will be spent efficiently and effectively; demonstration that a market exists for the services; and public benefits (emissions benefits, energy savings, landside transportation infrastructure maintenance savings, economic competitiveness, safety improvements, and system resiliency and redundancy).

US Department of Transportation: Port Infrastructure Development Program

Deadline to apply: September 16

The Department of Transportation seeks projects that will: (1) advance technology-supported safety and design efficiency improvements; (2) bring facilities to a state of good repair and improve resiliency; (3) promote efficient trade in energy resources; (4) promote exports of manufacturing, agriculture, or other goods; and (5) for only the top 15 coastal ports, support the safe flow of agricultural and food products, free of pests and disease, domestically and internationally.

Total FY19 Funding: \$292.7 Million

Minimum Amount Awarded: \$10 Million

Eligible Entities include the following:

- Port authority;
- A commission or its subdivision or agent under existing authority;
- State, local, and tribal governments;

- A public agency or publicly chartered authority established by one or more States;
- A special purpose district with a transportation function;
- A multistate or multijurisdictional group of entities, or;
- A lead entity described above jointly with a private entity or group of private entities.

To apply, see MARAD's [PIDP webpage](#) (deadline September 16).

About the Grant, [PIDP Webpage](#)

Selection Criteria: Grants will be awarded on a competitive basis for projects that will improve the safety, efficiency, or reliability of the movement of goods into, out of, around, or within a coastal seaport, as well as the unloading and loading of cargo at a coastal seaport.

Indoor Air Quality

EPA OAR Household Energy and Clean Indoor and Ambient Air– \$900,000

Applications Due: August 6, 2019

Eligible Entities: state governments, local governments, Indian Tribes

This notice announces the availability of funds and solicits applications to improve human health and the environment by reducing exposure in developing countries from indoor air pollution generated from household energy use. EPA is soliciting applications for projects that support this effort through:

- capacity building;
- technical assistance;
- strengthening of policies, standards, and supply chains for household energy technologies;
- the transition to cleaner fuels; and
- information exchanges

Eligible entities with experience conducting capacity building and technical assistance efforts that have achieved positive outcomes in the international household energy and health sector are encouraged to submit applications that will reduce indoor exposure to harmful air pollutants from household energy use and yield measurable environmental outcomes. For more information, visit the funding opportunity [description](#).

Notice of Funding Availability - HEALTHY HOMES PRODUCTION FOR TRIBAL HOUSING GRANTS

HUD's Office of Lead Hazard Control and Healthy Homes has announced the availability of \$12 million for Healthy Homes Production for Tribal Housing grants to Native American tribal governments (Federally recognized) and Native

American tribal organizations (such as a tribally designated housing entity submitting an application on behalf of a tribe). HUD will award grants of up to \$1 million each. The purpose of the grant program is to assist American Indian and Alaska Native tribal governments identify and remediate housing related health and safety hazards. Applications must be received by Grants.gov by August 9 at 11:59 PM ET. The application package can be [found here](#).

The Tribal Healthy Homes Network (THHN) has a webpage dedicated to [Funding Opportunities!](#) Additionally, THHN has developed a [Funding Guide for American Indian and Alaska Native Communities](#).
