Title

***The NTAA's mission "is to advance air quality management policies and programs, consistent with the needs, interests, and unique legal status of American Indian Tribes, Alaska Natives, and Native Hawaiians." As such, the NTAA uses its resources to support the efforts of all federally recognized Tribes in protecting and improving the air quality in Indian Country. Although the organization always seeks consensus on any given issue, it is important to note that the views expressed by the NTAA may not be agreed upon by all Tribes. Furthermore, interactions with the NTAA do not substitute for government-to-government consultation which can only be achieved through direct communication between the federal government and Indian Tribes. Federally recognized Tribes must apply as a Principle Member*
