

# Kevin Flavin, PE, CFM

## Senior Engineer

HSW is thrilled to announce the addition of Mr. Kevin Flavin, PE, CFM! Mr. Flavin is a Professional Engineer and Certified Floodplain Manager with 20 years of experience in the Water Resources industry. Most recently he spent two years with the Suwannee River Water Management District where he developed and managed Florida Department of Environmental Protection Springs Grant water quality and quantity projects, provided technical expertise on internal District projects, and served as a resource for numeric modeling support for regulatory staff. Prior to his time at the District, Mr. Flavin devoted 18 years to the industry working on projects for both the public and private sectors throughout the southeastern United States and internationally.

Mr. Flavin's expertise lies in hydrologic and hydraulic analysis, 2D and 3D numeric hydrodynamic modeling, and instrumentation of water quality and quantity parameters. He has provided analysis and design for projects in riverine and tidally influenced estuarine environments. Those projects have varied from marina water quality flushing design to complex analysis in support of MFL assessments.

Mr. Flavin brings his engineering skills and knowledge of water resource issues analysis and solutions to HSW, and is eager to assist clients find accurate and cost-effective approaches to optimizing solutions and meeting project goals.
