

OFFICER ROBERT CARRIGAN

Background:

I graduated from West Bridgewater Middle Senior High School in 2013. I went onto Massasoit Community College where I obtained my Associated Degree in Criminal Justice in 2017. I then transferred to Bridgewater State University and graduated in 2019 with a Bachelors Degree in Criminal Justice. I spent 3 years working part-time with the West Bridgewater Police Department before being hired full-time in August 2020. Before working for West Bridgewater Police Department I worked for a landscaping company out of West Bridgewater where I had a head start meeting the community I now work for.

Hobbies: I enjoy archery, golf, basketball, motocross, and snowboarding. I could name a lot more hobbies, but I mainly enjoy any and all activities that involve spending time with my friends and family.

Hardest part of the job: The hardest part of the job is having people look at you differently because of the profession you are in. Especially with the way the world is today and how people negatively view Police.

Best Part of the Job: The best part of the job is interacting with the community which is the main reason I choose this profession. Driving around all the neighborhoods waving and talking to the community will always put a smile on my face and make coming to work that much easier.
