

For Paul Earle & Bill Reynolds:

Congratulations and deserving KUDOS are extended to both of you, along with your supporting staffs and contractor services, for the highly successful black top paving of vehicle traffic lanes and resident parking areas in our LWVA community. Despite some mid-week inclement weather, this major project, involving a complex vehicle chess game, is being accomplished with minimum inconvenience to LWVA residents, and is being done with expert planning, organization, coordination and skillful execution. A highly deserving WELL DONE is warranted for your noteworthy achievement.

P.S. After pulling off a masterful job with the repaving, please don't hose it up by reinstalling those DUMB speed bumps in the traffic circle. In my opinion, that's the rotten cherry to top a fine desert.

Sincerely,

John Conjura
