The Brain Architecture Game

Kris Eaton, BA

Experience and engage in the powerful role of relationships on early brain development – what promotes it, what derails it, with what consequences for society and for you, the interpreter. 9-11:00

Crazy Like Us: Interpreters Who Translate – Improve 3 Modes

Margie Franzen, MA, CHI™

Be “crazy” for a while and give translation a try as a way to enhance interpreting skills. Learn about and practice translation and sight translation of vocabulary, literary texts and communication topics regarding diagnosis and treatment of pediatric PTSD, in both clinical and disaster relief settings. 11:15 – 12:15 and 1:00 – 2:00

***To Be with the Suffering of Another: Insights from
Clinical Practice on Providing Trauma-Informed Care***

Christopher Borden, MA, LPC, CSAC

Gain insights and access to vocabulary on providing trauma-informed care and what it means to be with the suffering of another. Learn tips - focus on the language one can use to connect with a patient compassionately, as well as how best to elicit conversations about trauma. Learn about screening for trauma using the ACES, the differences between trauma and PTSD, and effective treatments for disorders that result from trauma. 2:00 – 3:15

“Vroom Vroom” Communicating with Older Adults

Stan Hudson, MA, CDFT

Learn about changes that occur as we age, and strategies to enhance and ensure understanding when interpreting with older adults. Discuss concepts of health literacy and highlight how this can further contribute to the risk of misunderstanding, while providing techniques to minimize this risk. 3:30 – 4:30

Lunch from 12:15 – 1:00

break 11:00-11:15

break 3:15 – 3:30
