### Formula for determining the School Performance Grade:

80 percent of the School Performance Grade is based on the school Achievement score. The school achievement score is calculated using a composite method based on the points earned by a school on all of the tests measured for that school.

20 percent of the School Performance Grade is based on academic growth

If a school has met expected growth and inclusion of the school's growth score reduced the school's performance score and grade, a school may choose to use the school achievement score solely to calculate the performance score and grade.
