

ABOUT ME	I work to end inequity through better research and novel solutions. Since my days of tutoring in an under-resourced school while earning an engineering degree, I have explored and created solutions to improve lives. From inspiring students as a special education teacher to influencing academic discourse as a published author, I am a constant advocate of putting people first in the design process, particularly those who are underserved.
EXPERIENCE	<p><i>Senior UX Researcher</i>, Steelcase (Michigan) 2019-Present With the WorkSpace Futures team, I create great experiences for the world's leading organizations to help people reach their full potential.</p> <p><i>Staff UX Lead</i>, John Deere (Iowa) 2016-2019 At John Deere, a global company committed to those linked to the land, I sought ways to improve the working experiences of the people who grow our food and build our infrastructure.</p> <ul style="list-style-type: none">• Defined with a team a vision for digital products to bring intentionality to our customers' experiences, working toward a 2030 strategy.• Influenced approaches to accessibility and inclusive design, through exploring metrics and establishing strategies to ensure our solutions are usable by all.• Built strong relationships between UX, agile product teams, and users through insightful research activities while clearly articulating the implications. <p><i>Senior UX Engineer</i>, John Deere (Illinois) 2014-2016</p> <ul style="list-style-type: none">• Created a working prototype wearable device that delivers timely instructional content to under-trained workers, engaging them throughout the design process.• To grow the human centered design practice, I guided dozens of junior researchers and designers, and created 12 short courses, which have been accessed by hundreds of employees. <p><i>UX Research Assistant</i>, Georgia Institute of Technology (Georgia) 2007-2014 Returning to school at a leading research university committed to improving the human condition, I was afforded numerous opportunities to affect some of our biggest social challenges.</p> <ul style="list-style-type: none">• Secured grants from the Gates Foundation totaling \$150,000 to create three massive open online courses (MOOCs). For one course about psychology, I established collaboration with Carnegie Mellon to bring the latest, free curriculum to 41,000 students globally.• With an emphasis on veterans, I coordinated the creation of a highly individualized Health IT training program, working with the technology transfer office and community college systems. <p>Having earned a degree, it was time to put my newly minted knowledge and skills into practice.</p> <p><i>Academic Program Coordinator</i>, Johns Hopkins University (Maryland) 2006-2007</p> <p><i>Research Assistant</i>, American Institutes for Research (District of Columbia) 2005-2006</p> <p><i>Special Education Teacher</i>, Teach for America (Louisiana) 2003-2005</p>
DISTINCTIONS	<p><i>Leadership Summit Attendee</i>, John Deere 2018</p> <p><i>Mobile App of the Year Finalist</i>, Prometheus Awards 2017</p> <p><i>Enterprise Innovation Award</i>, John Deere 2017</p> <p><i>Certificate of Excellence in Reviewing</i>, Journal of Computers & Education 2016</p> <p><i>Student Member with Honors</i>, Human Factors and Ergonomics Society 2013</p> <p><i>100 Most Important Future Ed Tech People</i>, Tech & Learning Magazine 2010</p>
VOLUNTEERING	<p><i>Food Drive Collector</i>, Food Bank of Iowa 2019</p> <p><i>Reviewer</i>, Journal of Computers & Education 2013-Present</p> <p><i>Reviewer</i>, ISO 9241 (Human-centered design) and ISO 25065 (User requirements) 2017</p> <p><i>Campus Recruitment Ambassador</i>, Teach for America 2013-2014</p>

	<i>Lab Manager</i> , Problem Solving and Educational Technology Lab	2008-2014
	<i>Augmented Reality Demo Volunteer</i> , USA Science and Engineering Festival	2012
	<i>Committee Member</i> , National Ergonomics Month	2010-2012
	<i>HF/E Demonstration Volunteer</i> , Science at Hand Day at Fernbank Museum	2008-2012
	<i>President</i> , Human Factors and Ergonomics Society, Georgia Tech Chapter	2008-2010
	<i>Volunteer Recruiter</i> , Teach for America	2005-2007
	<i>Classroom Assistant</i> , America Reads America Counts	1999-2003
EDUCATION	DOCTOR OF PHILOSOPHY, ENGINEERING PSYCHOLOGY & SUSTAINABLE DESIGN	2014
	Georgia Institute of Technology, Atlanta, GA	
	<i>Doctoral Dissertation</i> : Transitional embedded instructions for manipulating physical objects	
	<i>Masters Thesis</i> : A framework of passive-active-constructive study techniques: A divergence between assigned and reported behaviors	
	BACHELOR OF SCIENCE, MECHANICAL ENGINEERING & PSYCHOLOGY	2003
	Rensselaer Polytechnic Institute, Troy, NY	
PROFESSIONAL ASSOCIATIONS	<i>Member</i> , User Experience Professionals Association	2015-Present
	<i>Member</i> , Industrial Designers Society of America	2013-2016
	<i>Member</i> , Human Factors and Ergonomics Society, National Chapter	2007-2015
	<i>Member</i> , CHI, Atlanta Chapter	2010-2014
	<i>Member</i> , Human Factors and Ergonomics Society, Georgia Tech Chapter	2007-2014
