

Residue[®] Complete

FO02873

- Faster breakdown of crop stubble, cover crops, and composts
- Increases soil nutrient availability
- Soil conditioning humates

**GUARANTEED ANALYSIS:
Soil Amending Ingredients:**

Microbial Content	<1%
Bacillus amyloliquifaciens	6.25 x 10 ⁹ cfu/g
Bacillus licheniformis	2.5 x 10 ¹⁰ cfu/g
Bacillus megaterium	6.25 x 10 ⁹ cfu/g
Bacillus pumilis	1.88 x 10 ¹⁰ cfu/g
Phanaerochaete chrysosporium	4.38 x 10 ⁶ cfu/g
Trichoderma reesei	1.88 x 10 ⁶ cfu/g
ALSO CONTAINS NON-PLANT FOOD INGREDIENTS:	
74%	Sugar (Sucrose) (microbe food)
5%	Humic Acid derived from oxidized lignite
Total Other Ingredients	22%

PRODUCT DESCRIPTION:

Residue[®] Complete is a diverse blend of naturally-occurring, nutrient-cycling microorganisms plus a food source. These organisms were specially chosen to help break down plant residue such as crop stubble, leaves, and composts. Residue[®] Complete contains soil-conditioning humates to improve root vigor.

Shelf Life: Microbe count may begin to decline 2 years from manufacturing date printed on container.

WARNING:

Keep out of reach of children. This product is not intended for human consumption. Wear appropriate mask, goggles and gloves during use to avoid inhalation and contact with eyes and open wounds. Rinse contacted areas with water and wash hands after use.

Recommended Application Rate		
Crops	Rate	Frequency / Notes
All Crops	2 -3 lbs per acre	Add to 10-20 gallons of total tank mix. Consult your sales representative for more specific liquid recommendations and proper application rates. Spray through 50 mesh or coarser screens with matching tips. Use within the intended growing season.
